

# Prague Dependency Treebank: Surface Syntactic Annotation

Markéta Lopatková

Institute of Formal and Applied Linguistics, MFF UK

[lopatkova@ufal.mff.cuni.cz](mailto:lopatkova@ufal.mff.cuni.cz)

---

---

# Prague Dependency Treebank

- application of a language theory onto a large set of data
- primarily focused on Czech running texts
- attempt to standardize dependency annotation
  
- language data
- tools
  - TrEd ... graphical editor and interface for creating queries (practical lectures) <http://ufal.mff.cuni.cz/tred/>
- documentation: <http://ufal.mff.cuni.cz/pdt3.5/documentation>
  - Guide, <http://ufal.mff.cuni.cz/pdt2.0/>
  - manuals for individual layers
  - survey of data formats and tools

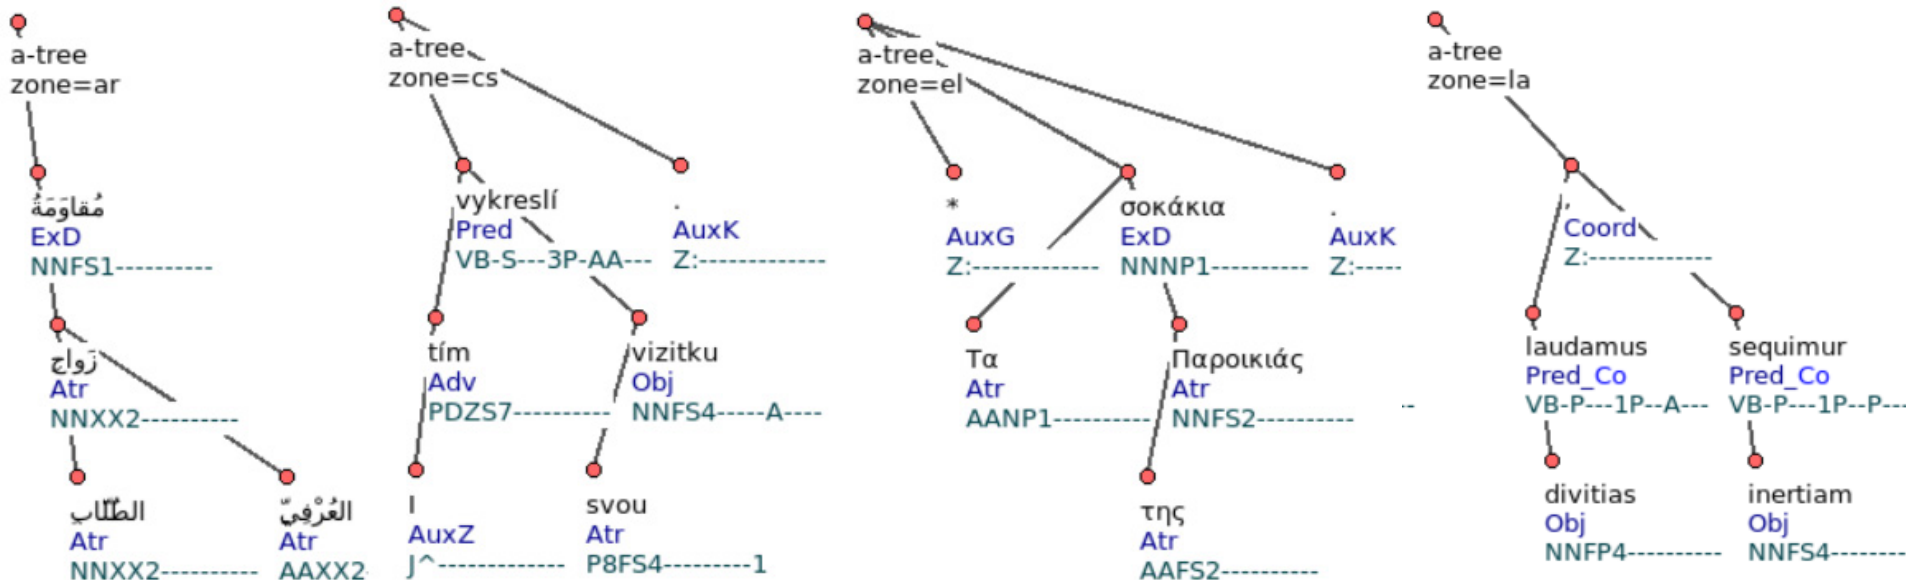

# Prague Dependency Treebank

- **HamleDT** ~ a compilation of existing dependency treebanks (or dependency conversions of other treebanks), transformed so that they all conform to the same annotation style ... 2012

36 languages, 42 treebanks in HamleDT 3.0 (2015)

<http://ufal.mff.cuni.cz/hamledt/>

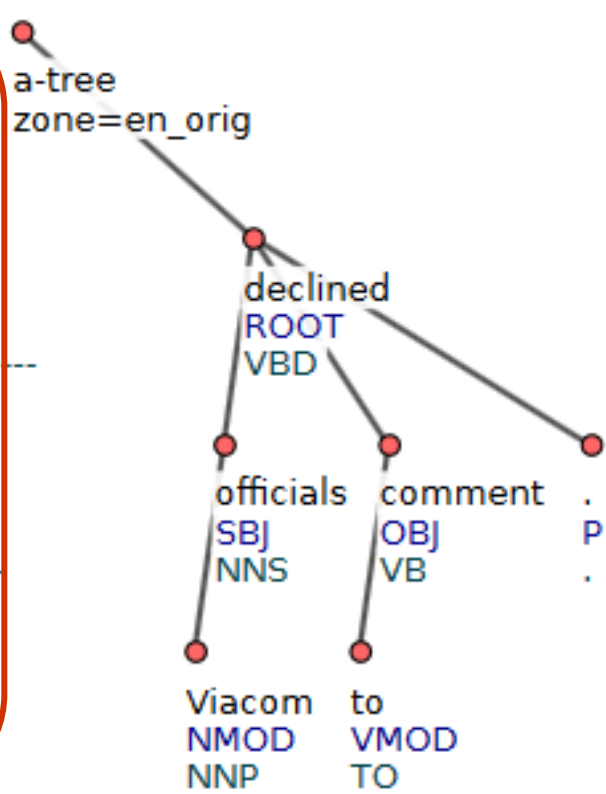

# HamleDT: a-layer

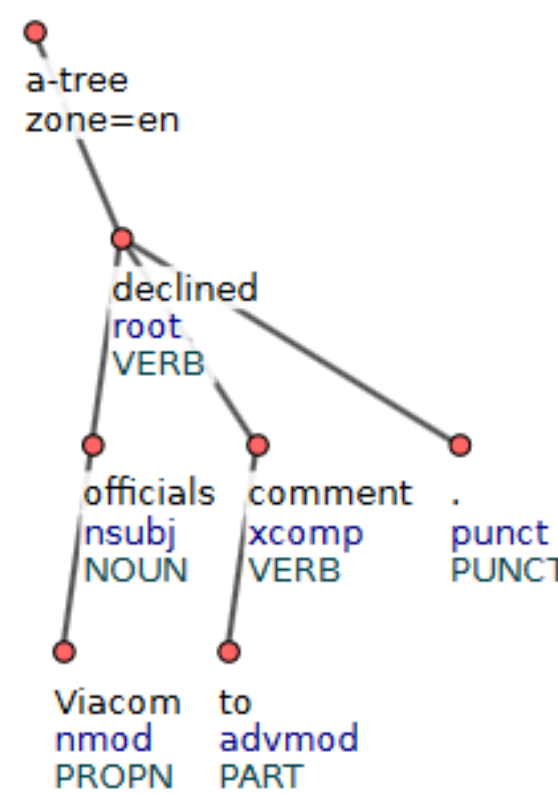

<https://lindat.mff.cuni.cz/services/pmltq/#!/treebanks>

(login required for English, free whenever possible)

## PDT style

## Universal Dependencies

---

# Prague Dependency Treebank

4 layers:

- word layer (w-layer)
- morphological layer (m-layer)
- **analytical layer (a-layer)**
- tectogrammatical layer (t-layer)

*layers of annotation*

layers of description	t,a,m-layer				a,m-layer
	train	dtest	etest	total	total
# documents	2 536	316	316	3 168	2 170
# sentences	38 737	5 228	5 477	<b>49 442</b>	<b>38 538</b>
# tokens	652 700	87 988	92 669	833 357	671 490

---

# PDT: a-layer

## Goal:

- to describe the structure of the sentence and
- to denote the type of relations between tokens

---

# PDT: a-layer

## Goal:

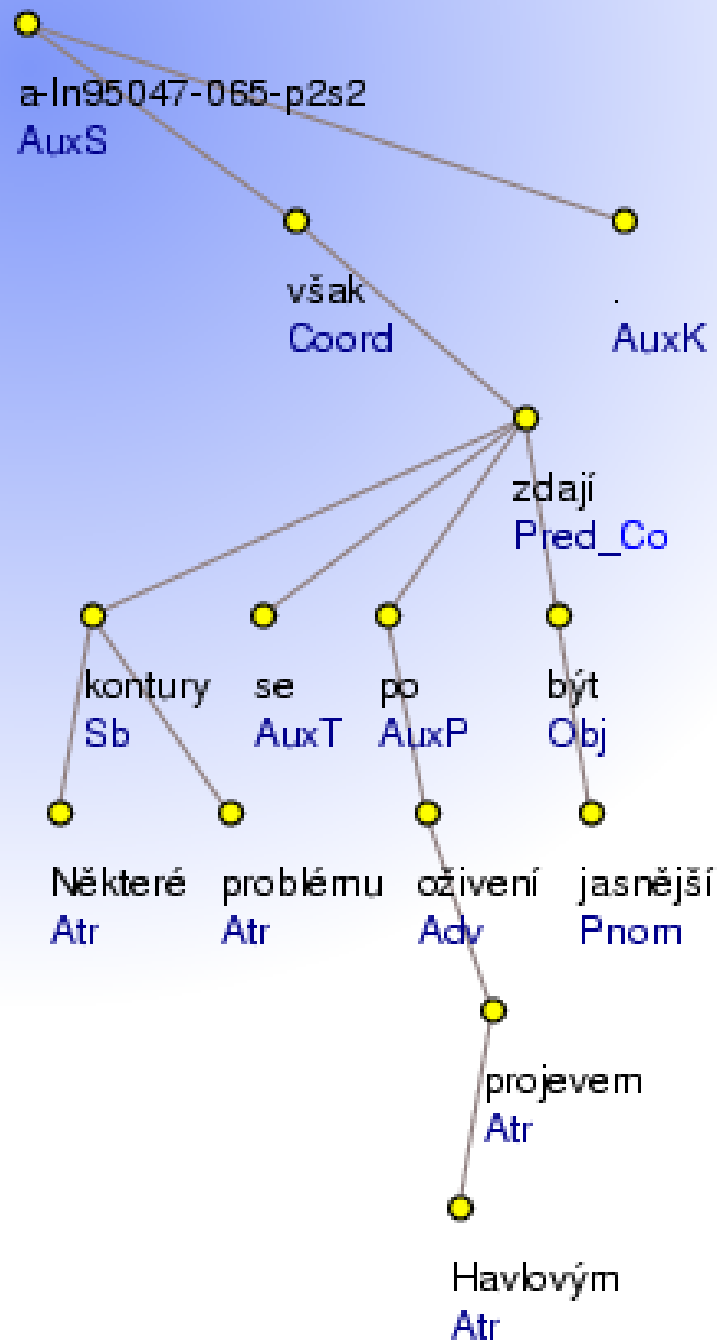

- to describe the structure of the sentence and
- to denote the type of relations between tokens
  
- dependency tree
- one token from m-layer ~ one node *incl. prepositions, punctuation ...*  
plus technical root
- relations ~ edges
  - dependency, coordination, punctuation, ...
  - type of relation: attribute of the child node
  - oriented "upwards", i.e., towards its parent / "governing" node
- linear ordering ~ surface word order

**!!! tree structure ~ XML structure !!!**

# PDT: a-layer

*Některé kontury problému se však po oživení  
Havlovým projevem zdají být jasnější .*

[Some contours of the problem seem to be clearer  
after the resurgence by Havel's speech.]

---

# A-layer: attributes of a node (non-root)

Attribute Name	Description
id	unique identifier of the node in PDT 2.0
m.rf	PML reference; points to a node on the m-layer (i.e., node m)
<b>afun</b>	<b>analytical function ~ kind of relation between the node and its parent node</b>
is_member	0 or 1; denoting members of a coordination or apposition; only children of a node with afun Coord or Apos (disregarding AuxP and AuxC)
is_parenthesis_ _root	0 or 1; 1 identifies roots of subtrees corresponding to parentheses
ord	positive integer; the (left to right) order of representing the nodes in graphical applications
clause_member	identifies a clause to which the node belongs (for Czech)

---

# A-layer: attributes of a root

Attribute Name	Description
id	unique identifier of the tree in PDT 2.0
s.rf	PML reference (points to a sentence marked s on the m-layer )
afun	AuxS (analytical function)
ord	0 (position in the horizontal ordering of the nodes in a tree )

---

# List of analytical functions (afun)

- sentence predicate ... **Pred, Pnom, AuxV**
- subject ... **Sb**
- object ... **Obj**
- adverbial ... **Adv**
- attribute ... **Atr**
  - combined functions ... **AtrAtr, AtrObj, ObjAtr, AtrAdv, AdvAtr**
- complement ... **Atv, AtvV**
- auxiliary sentence member
  - ... **AuxS** (technical root)                      **AuxO, AuxY** (emotion, particles)
  - ... **AuxC, AuxP** (conj ,prep)                      **AuxZ** (rhematizers)
  - ... **AuxT, AuxR** (reflexives)                      **AuxX, AuxG, AuxK** (graphical symbols)
- non-dependency structures ... **Coord, Apos**
- ellipsis ... **ExD**

---

# Predicate of a simple sentence / main clause

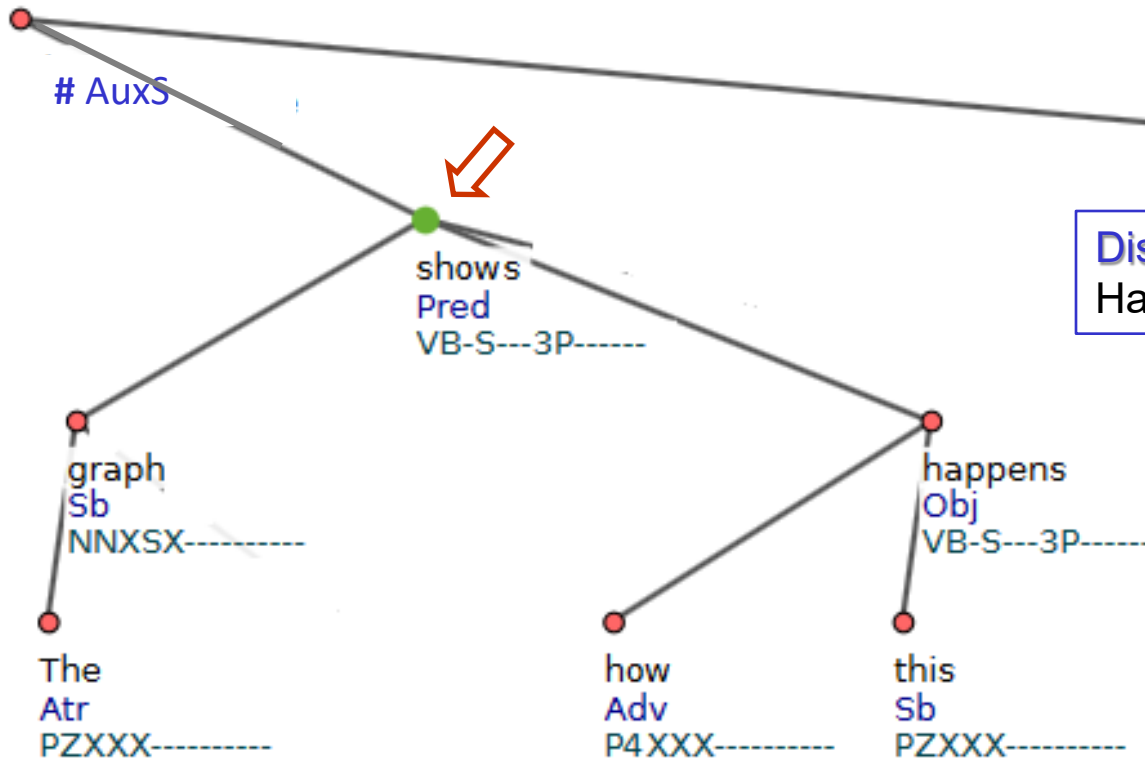

*Predicate* ... analytical functions: **Pred, Pnom, AuxV**

- attributing some property/state/change/activity to the subject
- basic sentence member
- governing node (= head) of its clause

# Predicate of a simple sentence / main clause

- a child of the technical root
- typically a finite verb form ... **Pred**

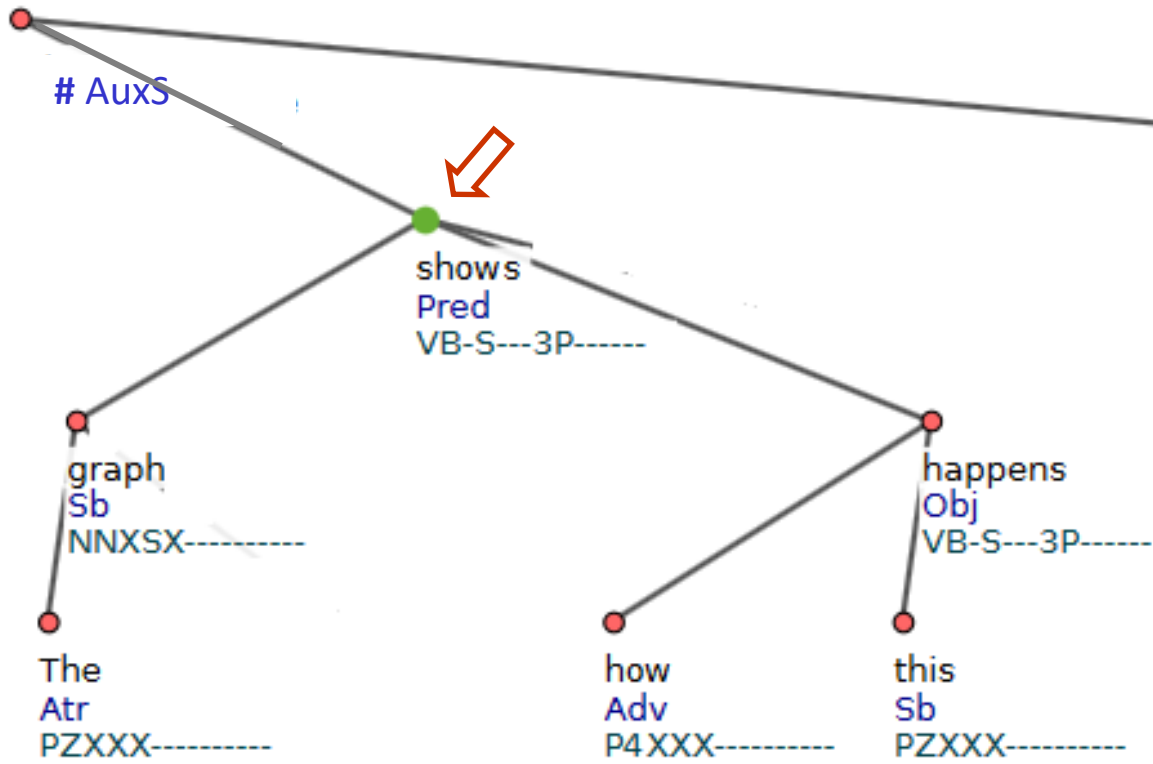

**Disclaimer** ... English trees from HamleDT (automatically transferred)!

*The graph **shows** how this happens ...*

# Predicate of a simple sentence / main clause

- a child of the technical root
- typically a finite verb form ... **Pred**

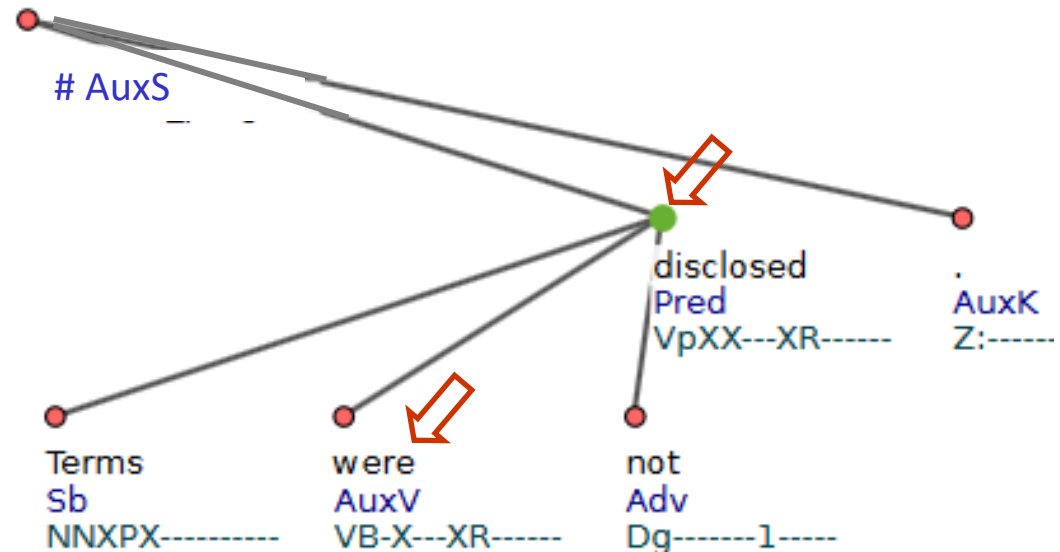

*Chimneysweep sweeps chimneys.*

*The graph **shows** how this happens ...*

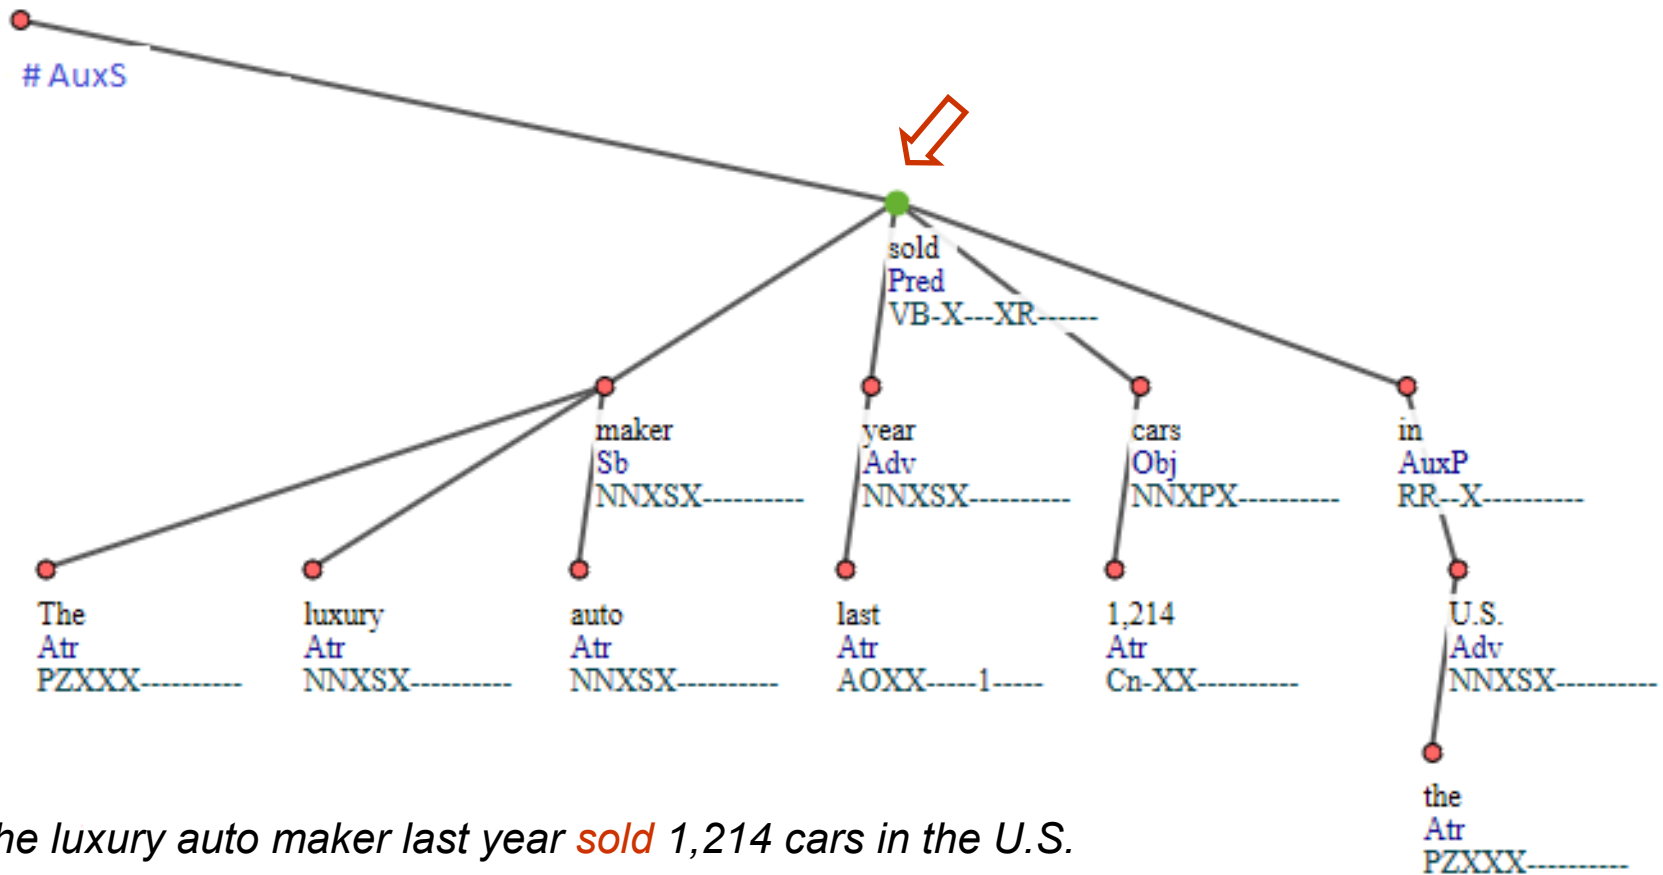

# Predicate of a simple sentence / main clause

- a child of the technical root
- typically a finite verb form ... **Pred**
  - analytical verbal forms: auxiliary verbs ... **AuxV**

*Terms were not disclosed.*

# (1) Simple verbal predicate: lexical verb

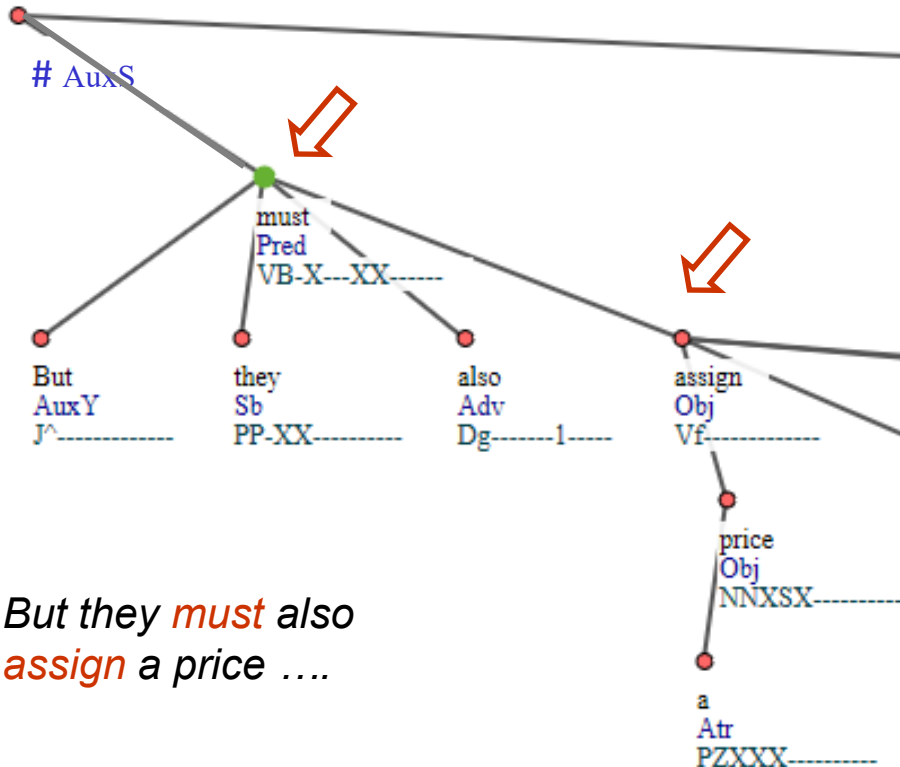

*The luxury auto maker last year **sold** 1,214 cars in the U.S.*

## (2) Compound verbal predicate

- finite modal / phase verb **Pred** + infinitive of lexical verb **Obj**
  - *mít* [should], *muset* [must], *moci* [can], *chtít* [to want], *dát\_se* [to be possible], *smět* [may], ...
  - *začít* [to begin], *skončit* [to end], ...

But they *must* also *assign* a price ....

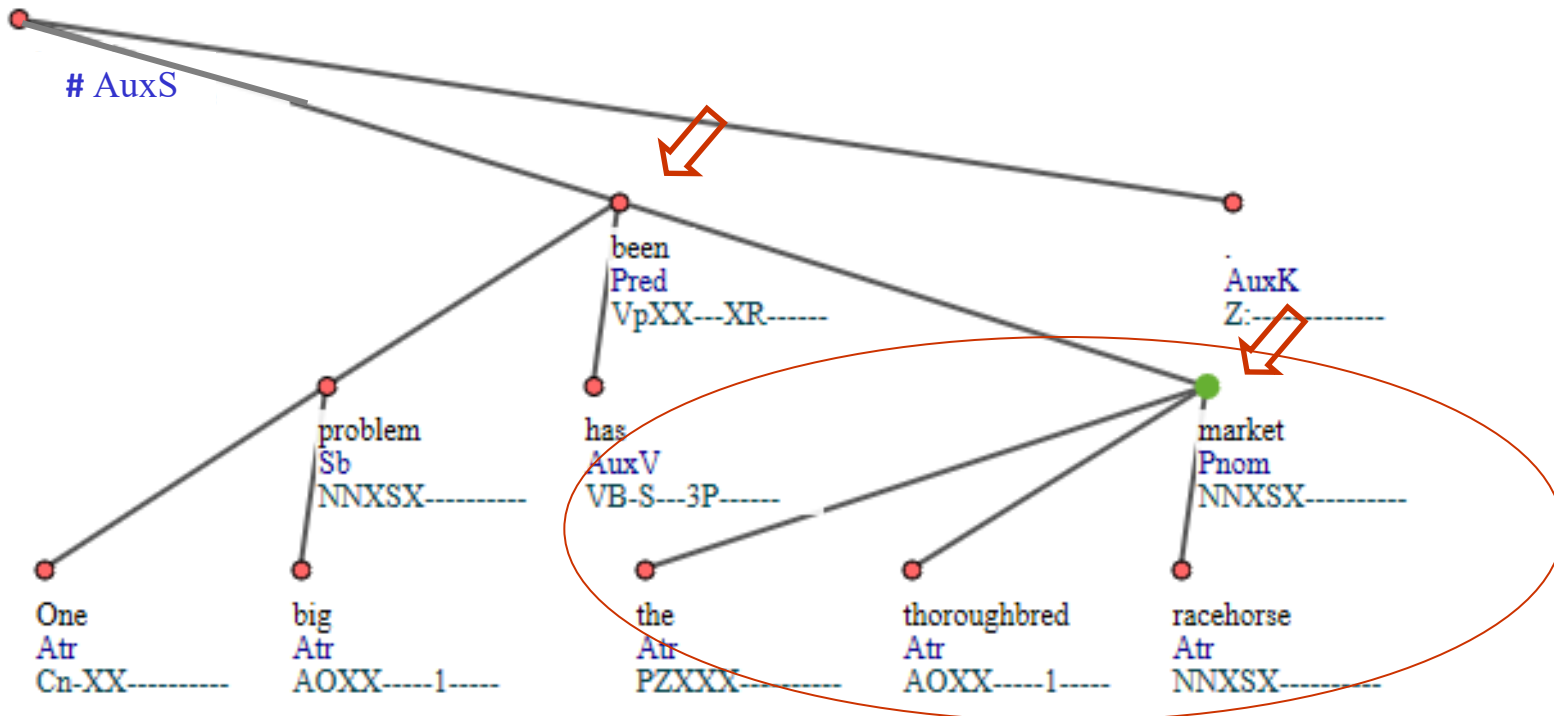

Yesterday (it) *should* rain.

### (3) Verbonominal predicates

- copular verb ... **Pred**
  - a verb used to link the subject of a sentence with a predicate
  - verb expressing identity, membership in a class, property ...
- nominal predicate ... **Pnom**

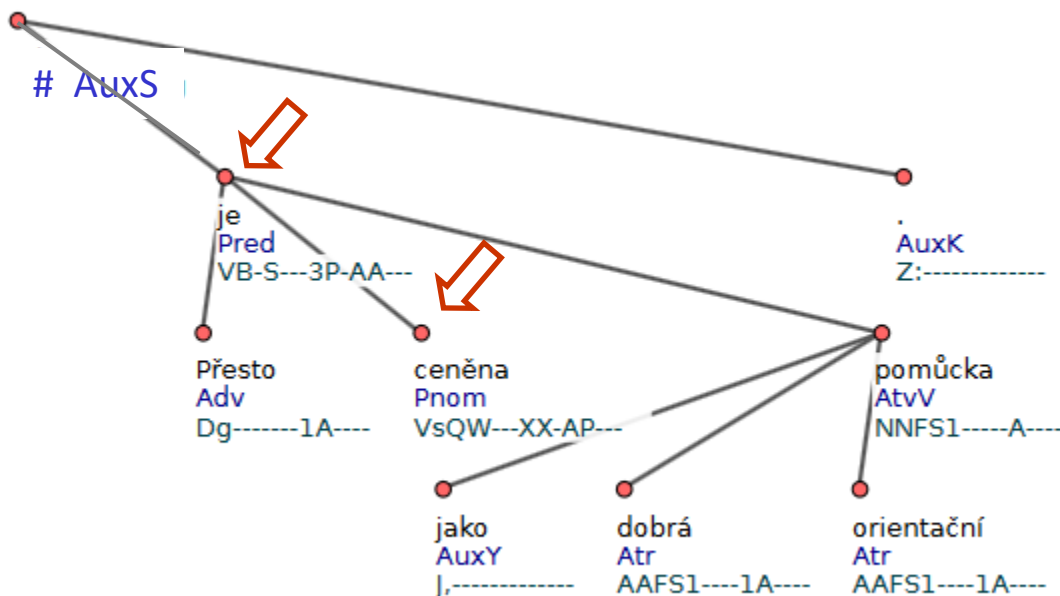

One big problem has **been** the thoroughbred racehorse **market**.

### (3) Verbonominal predicates

- copular verb ... **Pred**
  - a verb used to link the subject of a sentence with a predicate
  - verb expressing identity, membership in a class, property ...
- nominal predicate ... **Pnom**

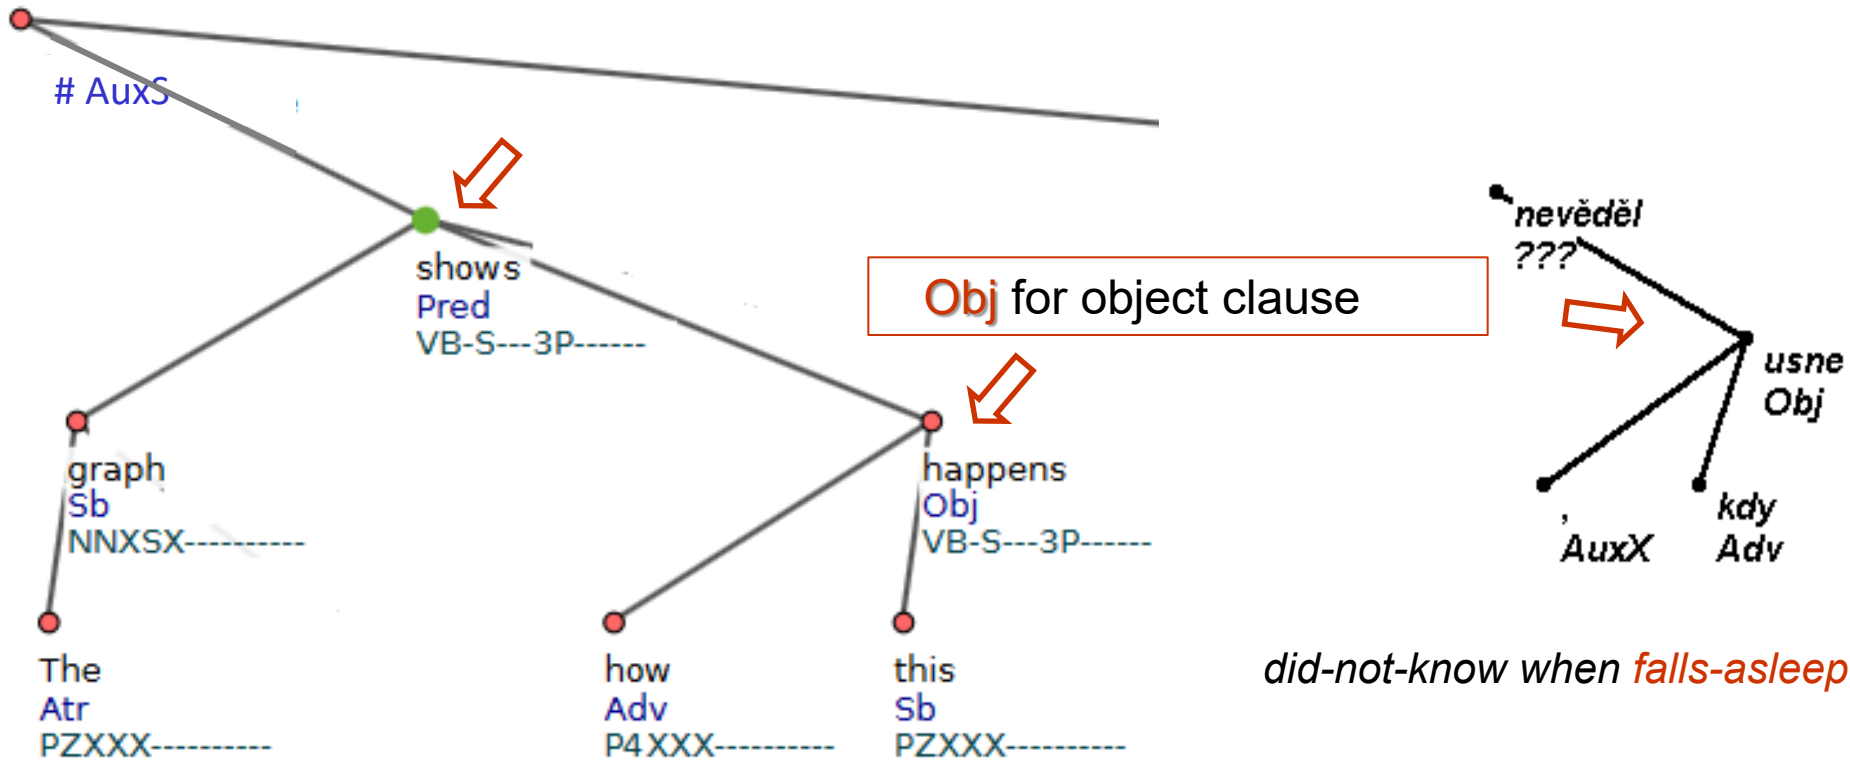

Beer *is healthy*.

*Přesto je ceněna jako dobrá orientační pomůcka.*

# Predicate of a *subordinate clause*

- a fun of the **respective function**

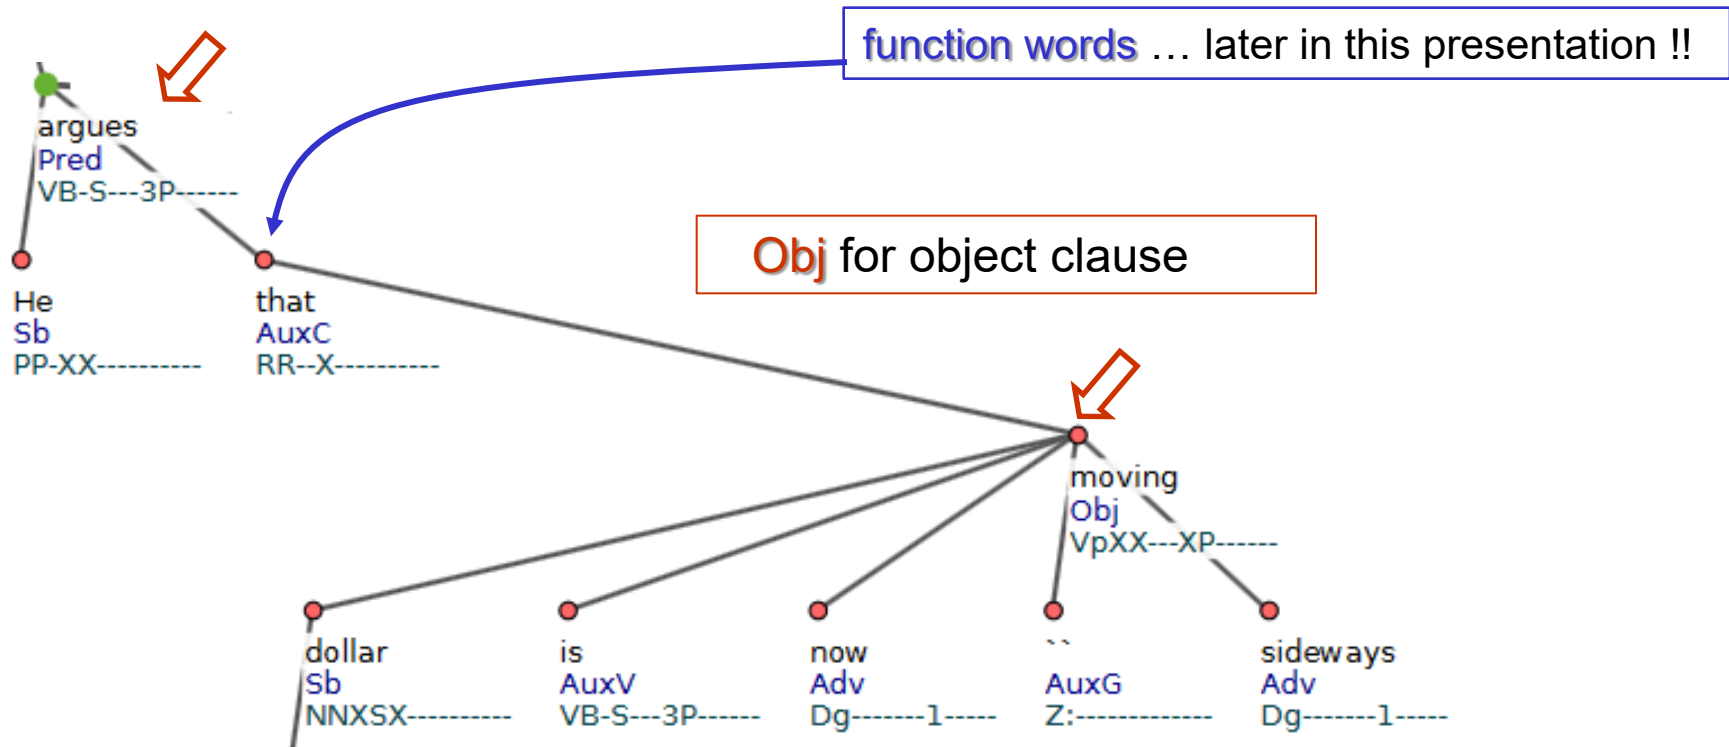

The graph shows how this *happens* ...

# Predicate of a *subordinate clause*

- a fun of the **respective function**

*He argues that [...] dollar is now **moving** “sideways” ...*

# Subject

**Subject** ... analytical function: **Sb**

- any construction answering the question *who (what)*
- dependent on a clause predicate

*He argues that...*

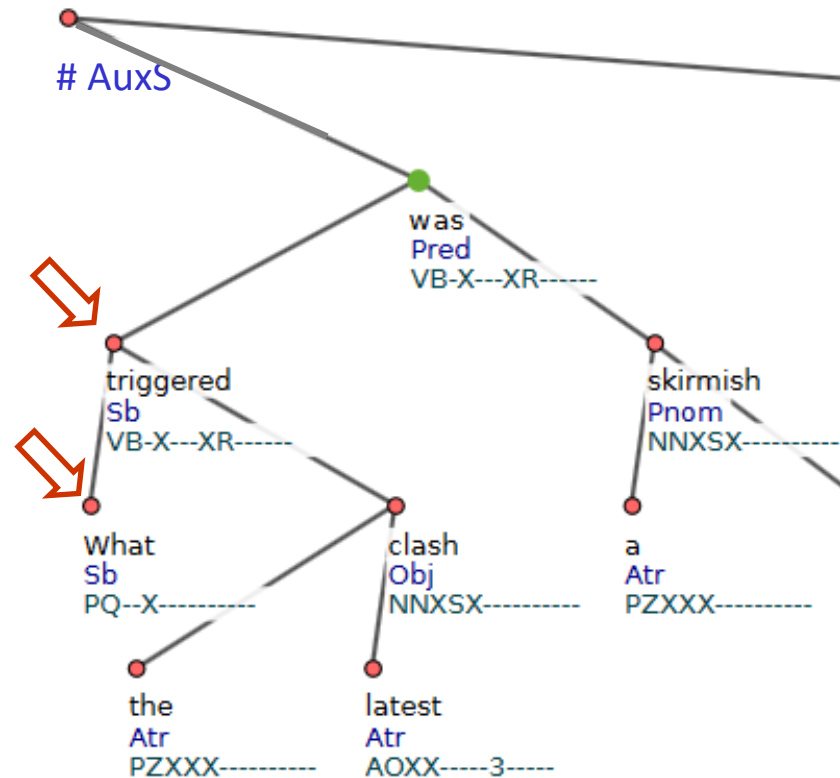

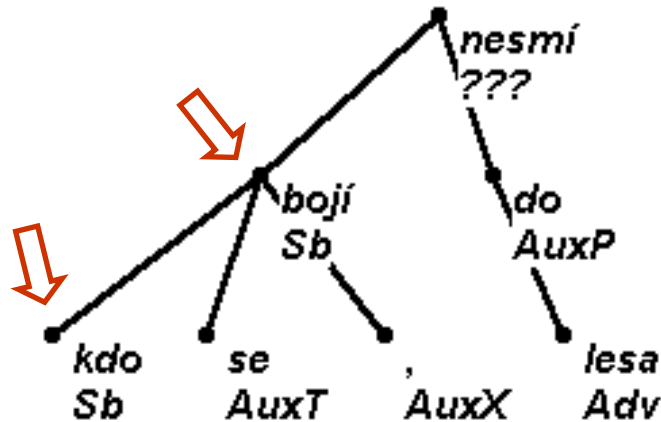

*Tonda nese pivo.*  
Tony – brings – beer

# Subject

**Subject** ... analytical function: **Sb**

- any construction answering the question *who (what)*
- dependent on a clause predicate

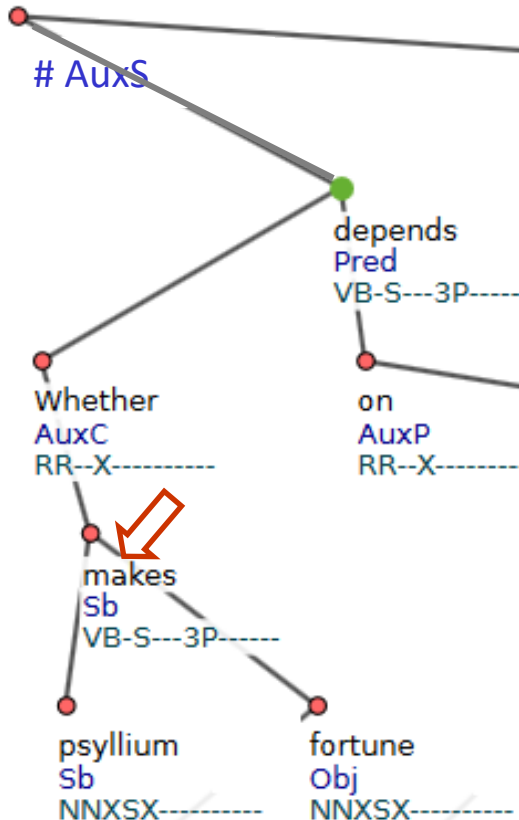

*What triggered the latest clash was a skirmish ...*

# Subject

**Subject** ... analytical function: **Sb**

- any construction answering the question *who (what)*
- dependent on a clause predicate

*jíst je obřad*  
*to-eat - is - ceremony*  
*eating is a ceremony*

*žádné napřesrok už nebude*  
*no - next-year - anymore - will-not-be*

*Whether psyllium fortune depends on .....*

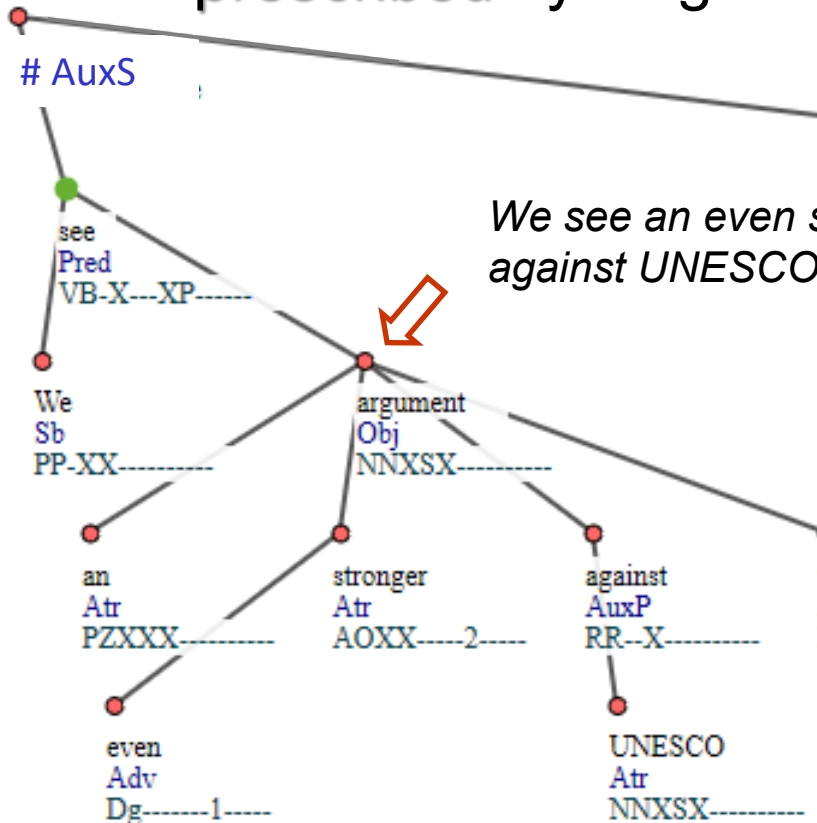

# Object

**Object** ... analytical functions: **Obj**

- object modifies a verb / adjective / adverb
- Czech ... **a form of an object is typically prescribed by its governing word (esp. case; cz term: **rekce**)**

We see an even stronger *argument* against UNESCO ...

Mirek hated (a) sentence *analysis*

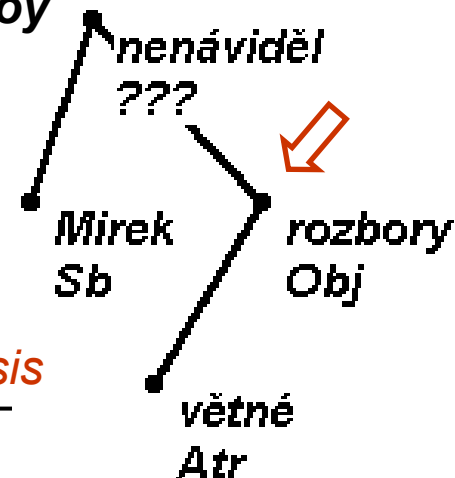

# Object

**Object** ... analytical functions: **Obj**

- object modifies a verb / adjective / adverb
- Czech ... **a form of an object is** typically prescribed by its governing word (esp. case; cz term: **rekce**)

(i) direct (accusative), indirect (dative), second object

- **result/effect** of an action,  
e.g. *to write a letter, to convert a document from one format to another, she was appointed a special assistant*
- **what is affected**, e.g. *to touch a table*
- what the action is directly **aiming at**, e.g. *to advise a boy*
- **an origin**,  
e.g. *to convert a document from one format to another*
- (infinitive following a modal or phase verb)

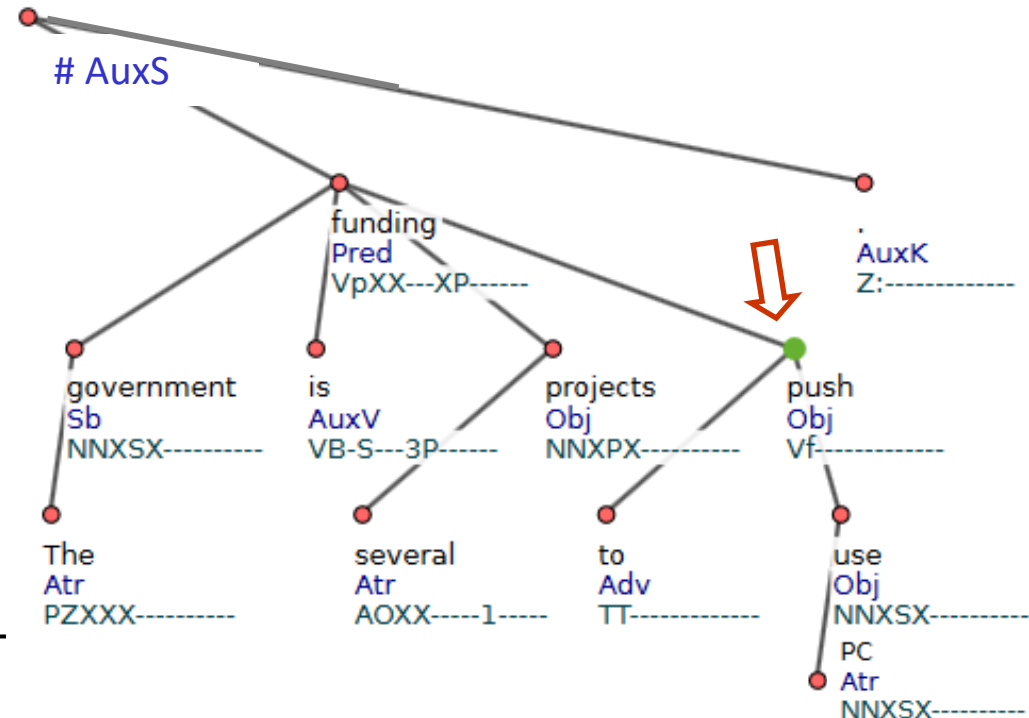

*Mirek hated (a) sentence analysis*

# Object

**Object** ... analytical functions: **Obj**

- object modifies a verb / adjective / adverb
- typically, **a form of an object is prescribed** by its governing word (esp. case; cz term: **rekce**)
  - direct (accusative), indirect (dative), second object
  - incl. infinitive constructions

*The government is funding several projects to **push** PC use.*

# Object

**Object** ... analytical functions: **Obj**

- object modifies a verb / adjective / adverb
- typically, **a form of an object is prescribed** by its governing word (esp. case; cz term: **rekce**)

(i) direct (accusative), indirect (dative), second object

(ii) incl. infinitive constructions

(iii) compound predicates ... **Pred + Obj**

*mít [should], muset [must], moci [can], chtít [to want], dát\_se [to be possible], smět [may];*

*začít [to begin], skončit [to end], ...*

(iv) direct speech

*"I believe it!" Cilka replied.*

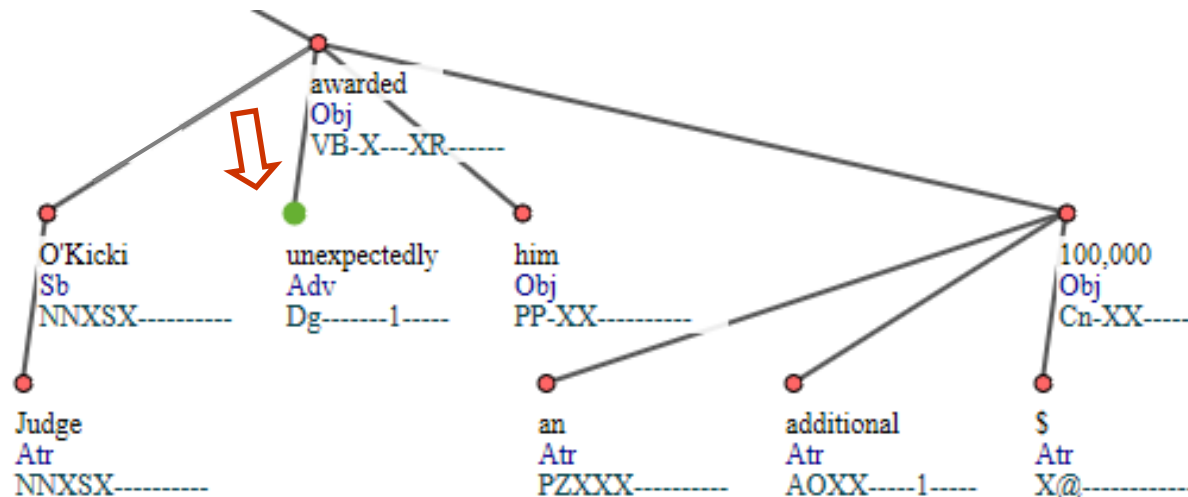

# Adverbials

**Adverbials** ... analytical functions: **Adv**

- express the circumstances and relations, such as location, time, manner, comparison, extent, means, cause, consequence, regard or aim
- can modify a verb, adjective or adverb

[... he says] Judge O'Kicki  
*unexpectedly* awarded him an  
additional \$ 100,000

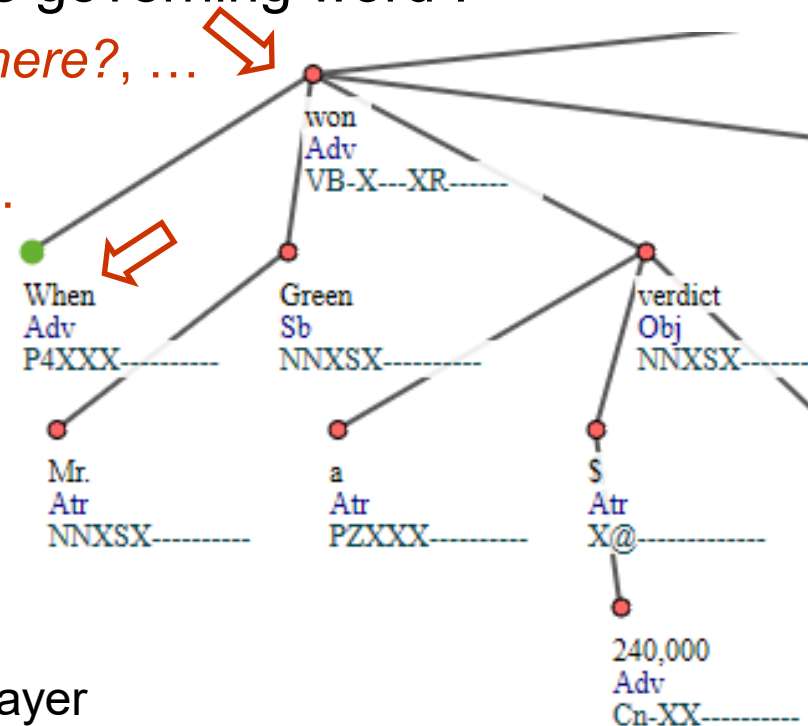

# Adverbials

**Adverbials** ... analytical functions: **Adv**

- express the circumstances and relations, such as location, time, manner, comparison, extent, means, cause, consequence, regard or aim
- can modify a verb, adjective or adverb
- a **form** of Adv is **not prescribed** by its governing word !
- questions: *where?, where to?, from where?, ...*  
*how long?, when?, ...*  
*for what purpose?, why?, ...*  
*how?, ...*
- in PDT not further classified

*When Mr. Green won a \$ 240,000 verdict ...*

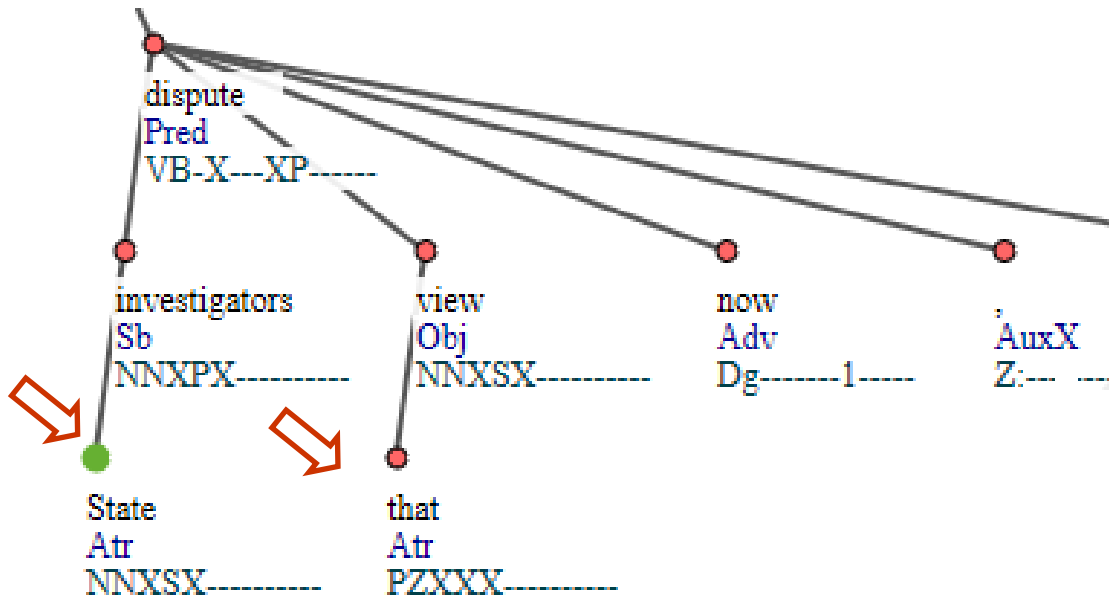

---

# Attribute

**Attribute** ... analytical functions: **Atr**

- modifies a noun (with any function)
- answers the question ... *which, what* or *whose* (*jaký, který, čí*)

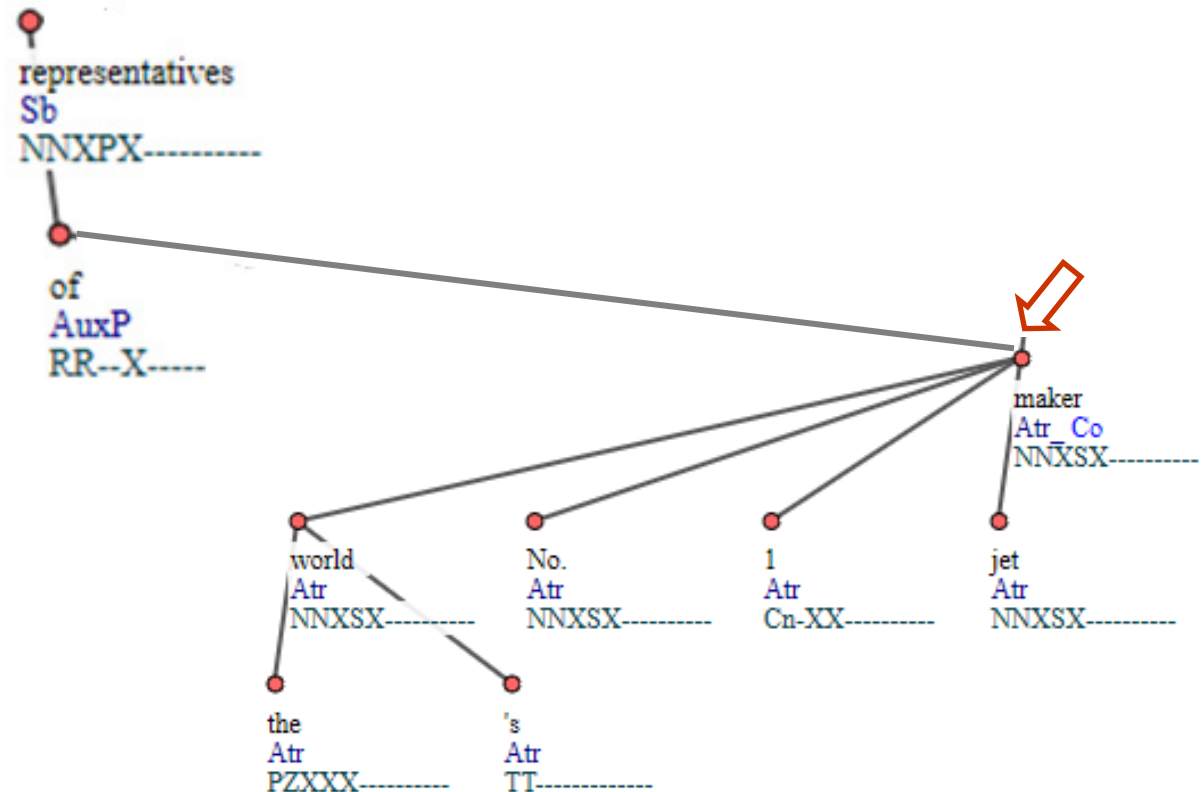

*State* investigators dispute *that* view now, ...

# Attribute

**Attribute** ... analytical functions: **Atr**

- modifies a noun (with any function)
- answers the question ... *which, what* or *whose* (*jaký, který, čí*)

... representatives of the world 's No. 1 jet maker ...

---

# Attribute: Agreement

- agreeing attribute ... the same case as its governing noun  
Adj ... case, number, gender  
BUT: *kluku ušatá*

*red letters*

*the-dead mother*

# Attribute: Agreement

- agreeing attribute ... the same case as its governing noun
- non-agreeing attribute

cottage of our **neighbor**

an inscription "Not for **sale**" was hanging on the door

knowledge that death **does-not-wait**

---

# Attribute

Atr ... ALSO "technical" solution for

- addresses
- names of persons and institutions
- foreign words
- expressions with numerals
- figures

# Complement

**Complement** (verbal attribute, **secondary predication** in UDs)

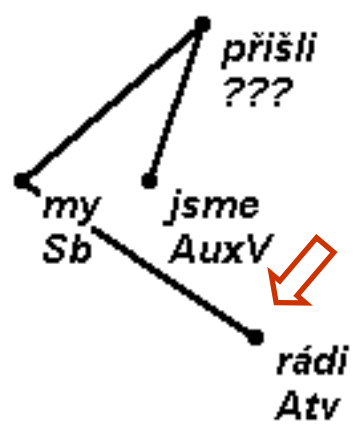

... analytical functions: **Atv, AtvV**

- modifies two sentence members, verb and noun

*chlapec ležel nemocen, viděl ho nemocného*

[boy – lay – **ill**]

[he – saw – him – (being) **ill**]

we - AuxV - came - **glad**  
we were glad to come

money - he-has - **deposit**  
he has put the money on a deposit

she-has - **cooked**  
he has done cooking

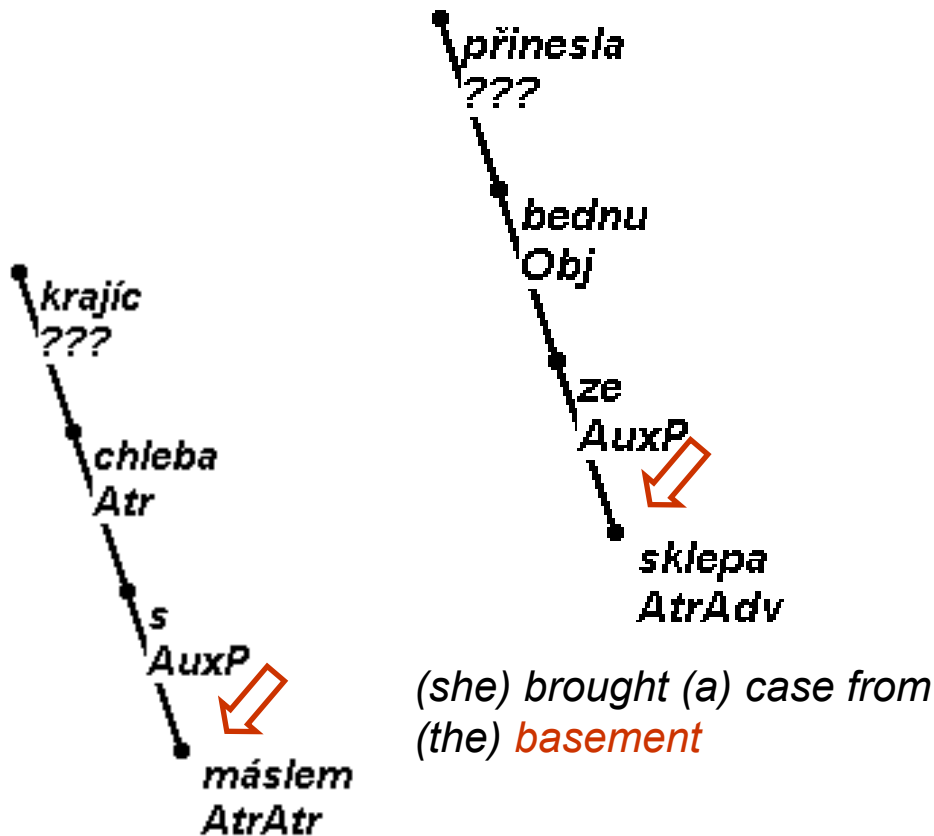

he-arrived - **barefooted**

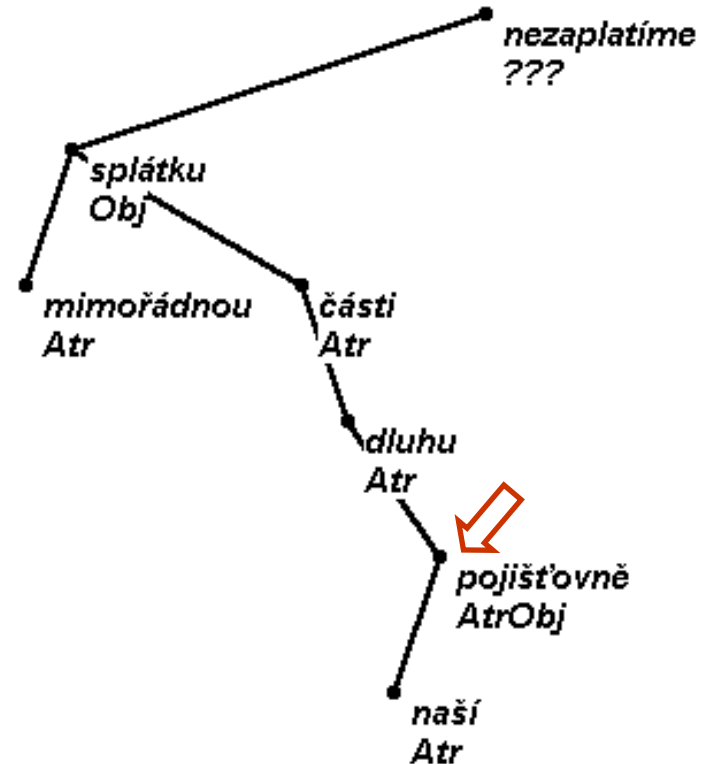

# Combined Functions

analytical functions: **AtrAtr, AtrAdv, AdvAtr, AtrObj, ObjAtr**

slice of bread with **butter**

we are not going to pay the extraordinary installment of the part of the debt to our **insurance office**

---

# Auxiliary Sentence Members

- function words
- punctuation and graphical symbols
- words with unclear syntactic function

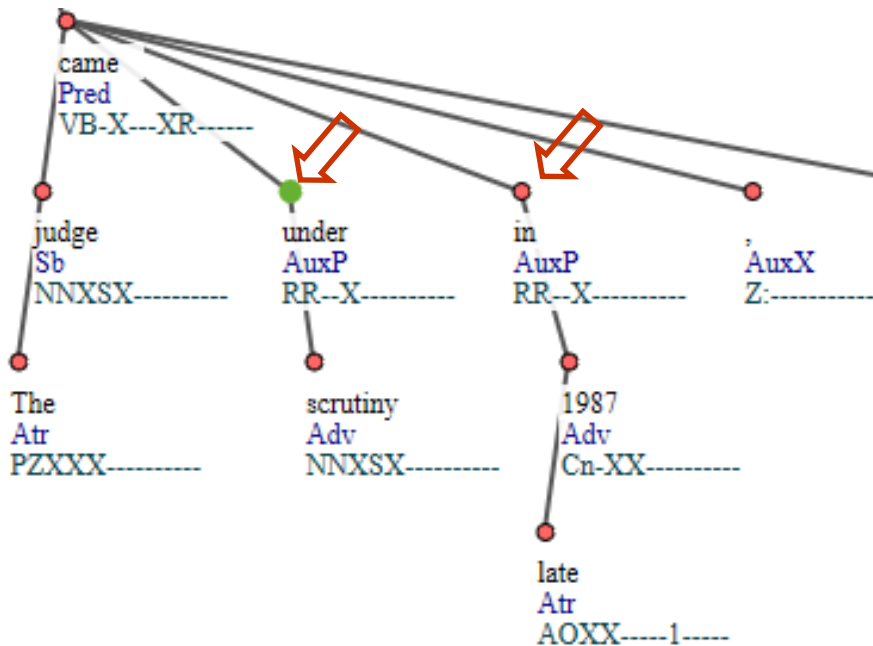

# Auxiliary Sentence Members

**AuxP** ... prepositions

- *parent of a nominal node*
- similarly one-word improper prepositions

*The judge came **under** scrutiny in late 1987, ...*

# Auxiliary Sentence Members

**AuxP** ... prepositions

- *parent of a nominal node*
- similarly one-word improper prepositions

(the) transition *from* (a) defense  
*to* (an) attack

(he) thought *of* (his) mother

(they) negotiated - *about* -  
(the) heritage

# Auxiliary Sentence Members

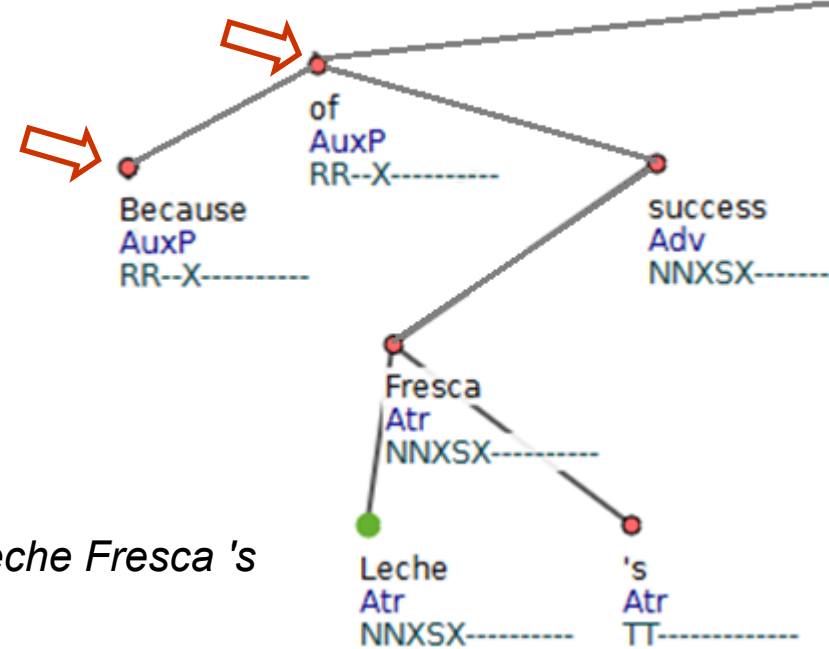

**AuxP** ... secondary prepositions

- consists of several words
- technical solution:
  - the last node ... head
  - the remaining words ... siblings of the noun governed

(they) closed - for - reasons - (of) leave  
(they) closed because of the leave

*Because of Leche Fresca 's  
success ...*

# Auxiliary Sentence Members

**AuxC** ... subordinate conjunctions

- subordinate clause introduced by a subordinate conjunction
- conjunction ... **root of the subordinate clause**

... she felt **as if** she would go off in a faint

# Auxiliary Sentence Members

**AuxC** ... subordinate conjunctions

- subordinate clause introduced by a subordinate conjunction
- conjunction ... **root of the subordinate clause**
- subordinate conjunction may attach an individual sentence member

... (they) talked about (an) attractive, **even** though crucial topic

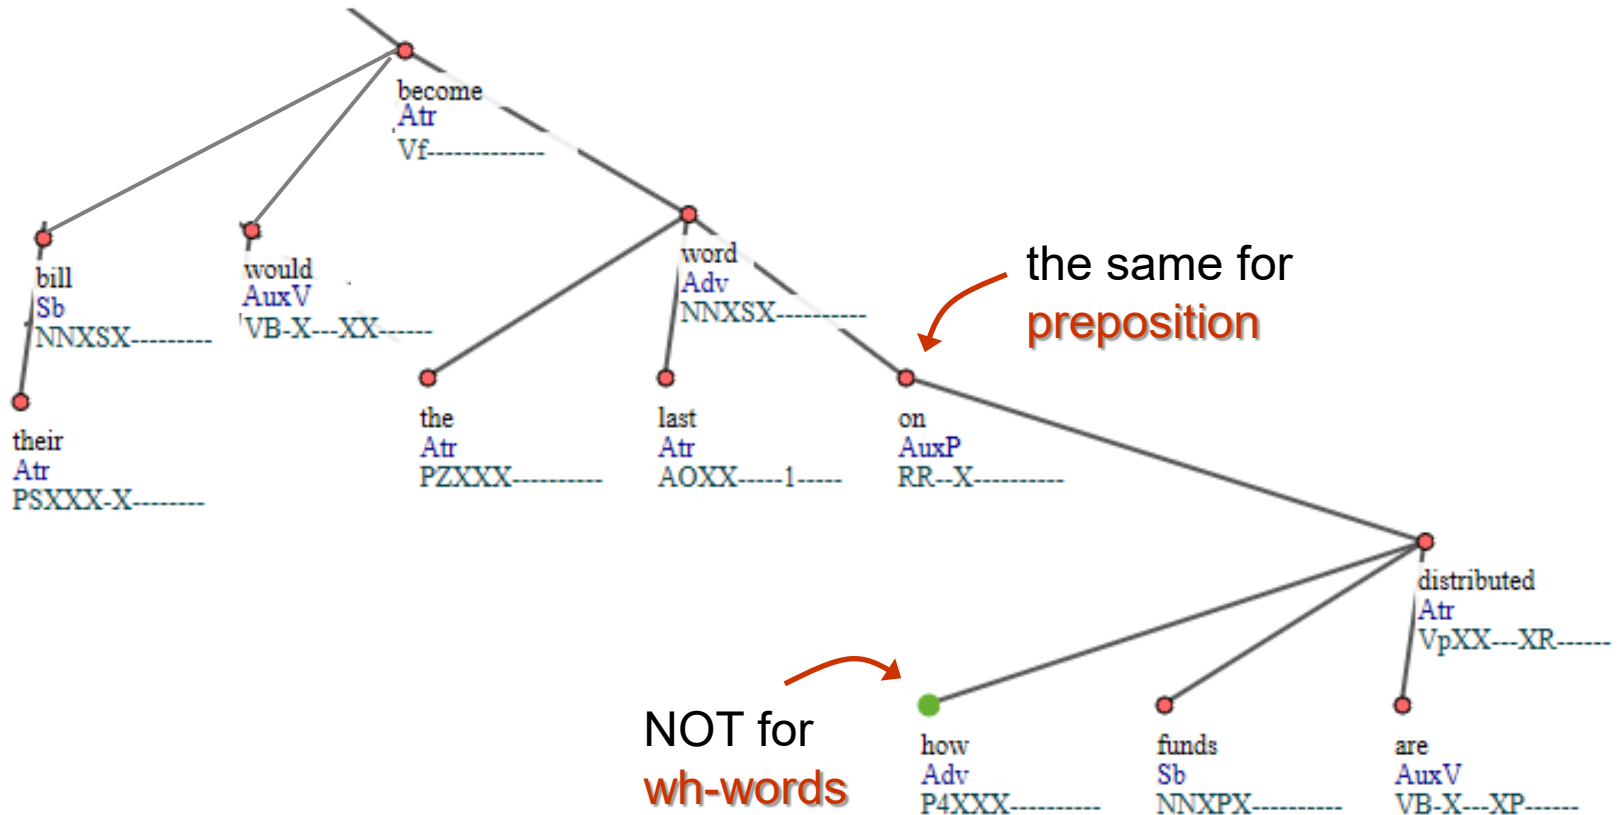

# Consequence for subordinated clauses

He argues *that* the dollar is now ``moving sideways ...

# Consequence for subordinated clauses

... their bill would become the last word on *how funds are distributed* .

---

# Auxiliary Sentence Members

**AuxT** ... morphemes **se**, **si** as a part of a reflexive tantum

*(they) - are-affraid - Refl - him*  
*they are afraid of him*

---

# Auxiliary Sentence Members

**AuxR** ... morphemes **se** as a part of a reflexive verbal form

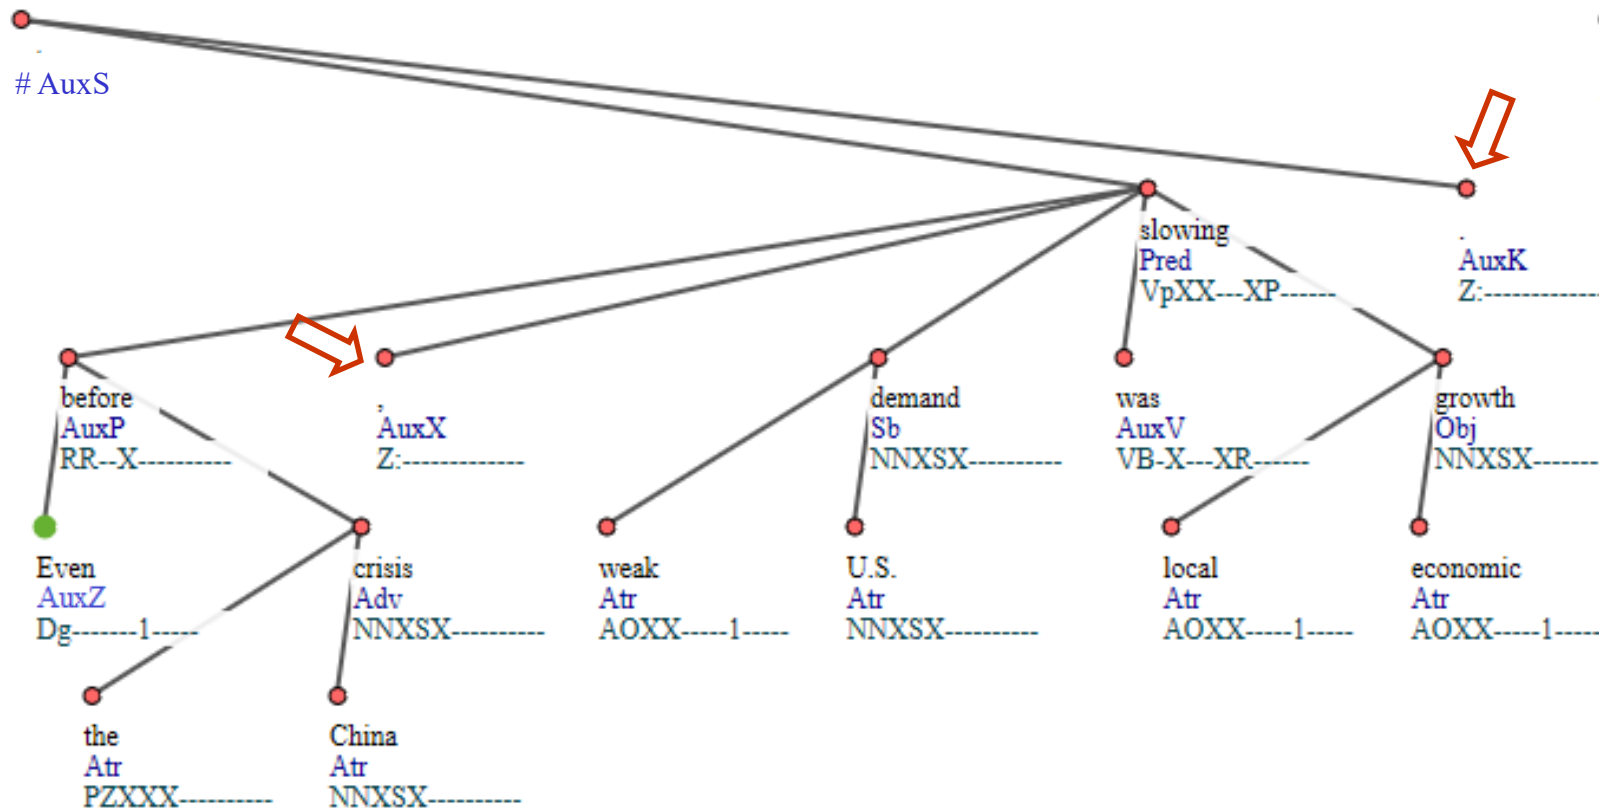

*it-danced – Refl – till – to morning*  
*the dancing went on till morning*

# Auxiliary Sentence Members

- punctuation ... **AuxX**
- other graphical symbols ... **AyxG**
- clause final punctuation ... **AuxK**

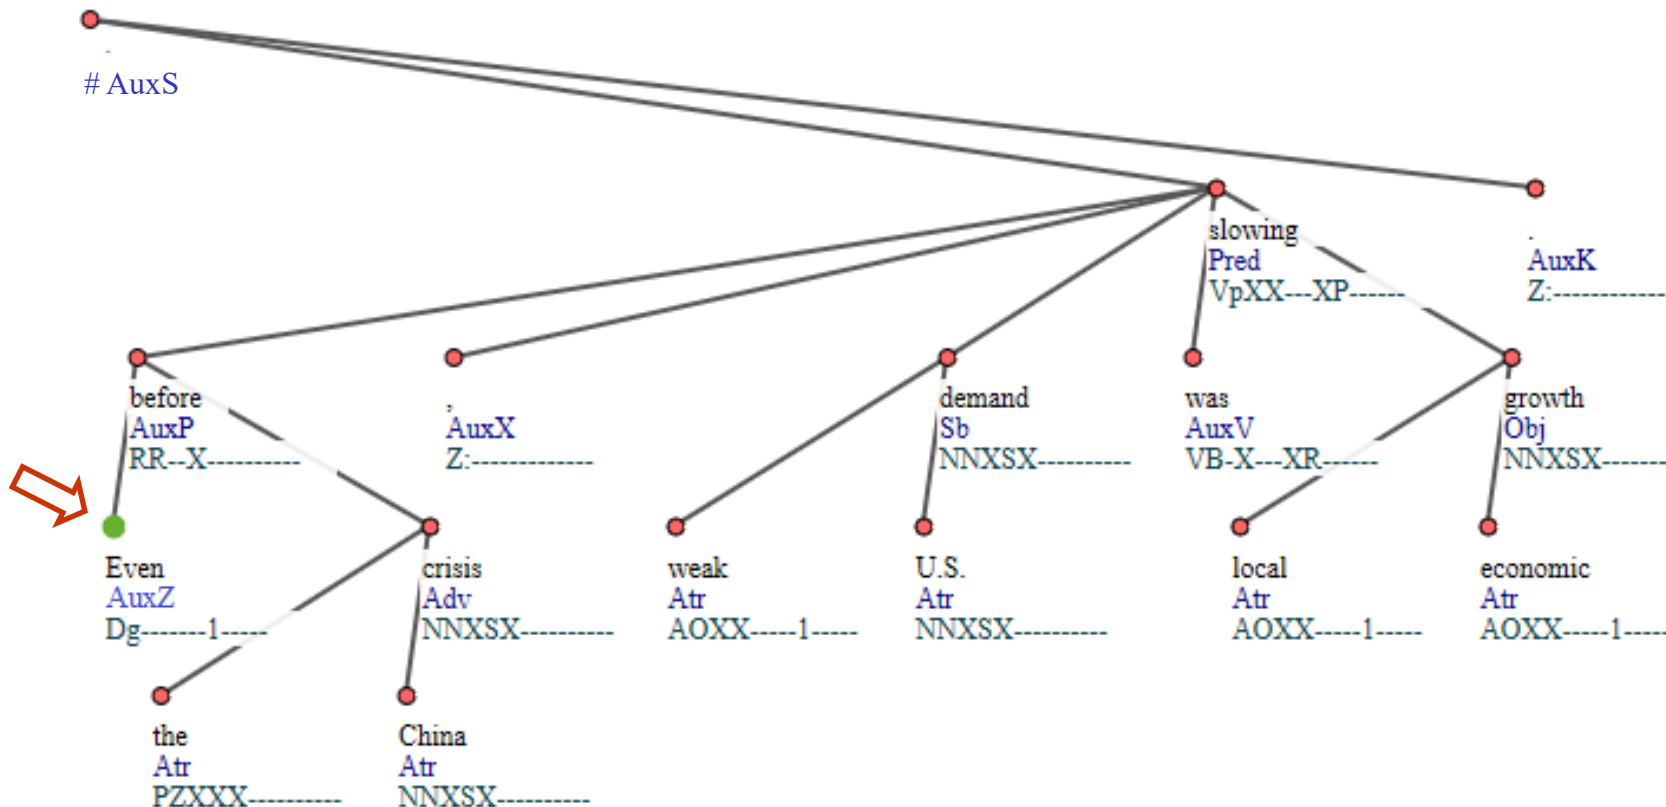

# Auxiliary Sentence Members

**AuxZ** ... emphasizing words (modifying a sentence member)

e.g., *asi* [maybe, approx.], *dokonce* [even, as far as], *hlavně* [mainly], *ještě* [moreover], *již* [yet], *leda* [only], *především* [most of all, most probably], *zvláště* [especially], ...

---

# Auxiliary Sentence Members

**AuxO** ... emotional particles

*mi, vám, si, ... to, ono, ...*

*(I) could not - Aux - you - fall asleep*  
*I couldn't fall asleep, you see.*

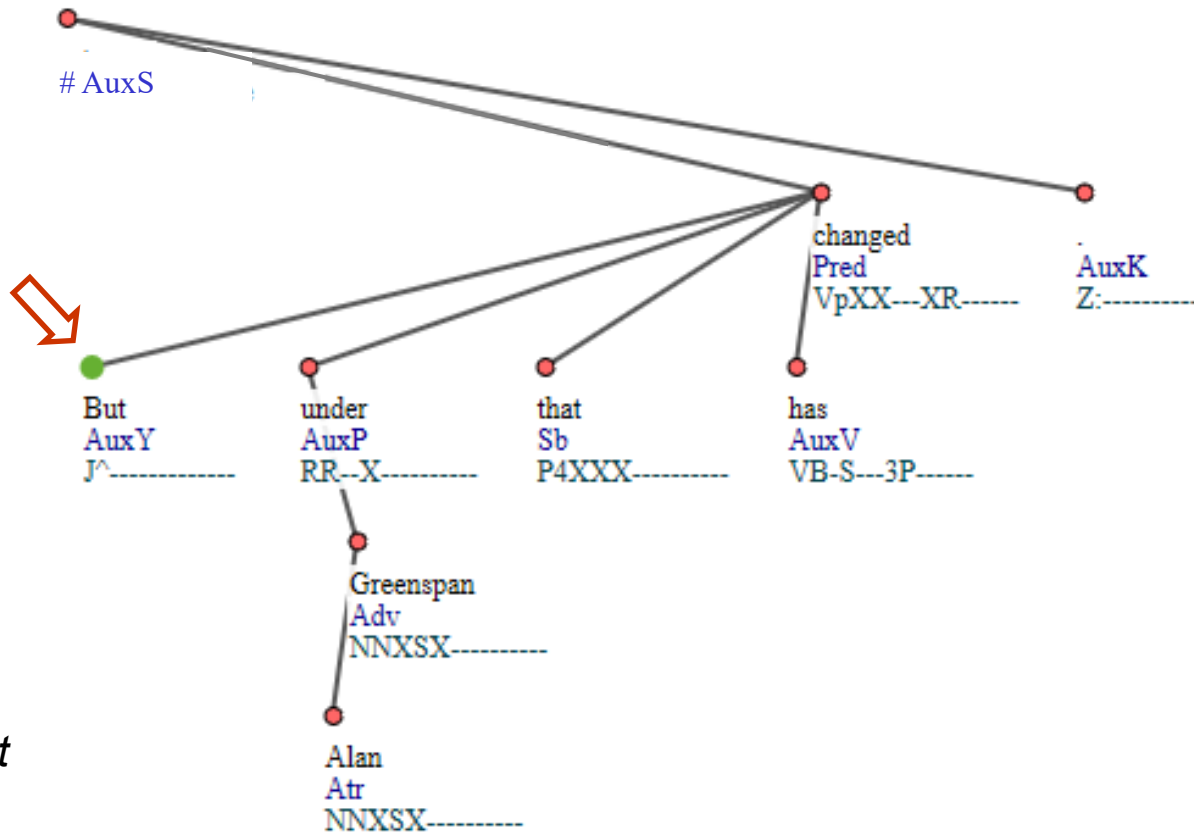

*it - he - not-come - papa*  
*obviously, papa failed to come*

---

# Auxiliary Sentence Members

**AuxY** ... particles modifying the whole sentence;

*They claimed that the Fed would first give a green light to the economy by making credit readily available and then turn on the red and bring growth to a screeching halt. **But** under Alan Greenspan that has changed .*

---

# Auxiliary Sentence Members

**AuxY** ... particles modifying the whole sentence  
parts of compound conjunctions  
comparison  
(and others)

---

# Principles of Annotation: Non-dependency

- coordination
- apposition
- parenthesis

---

# Coordination

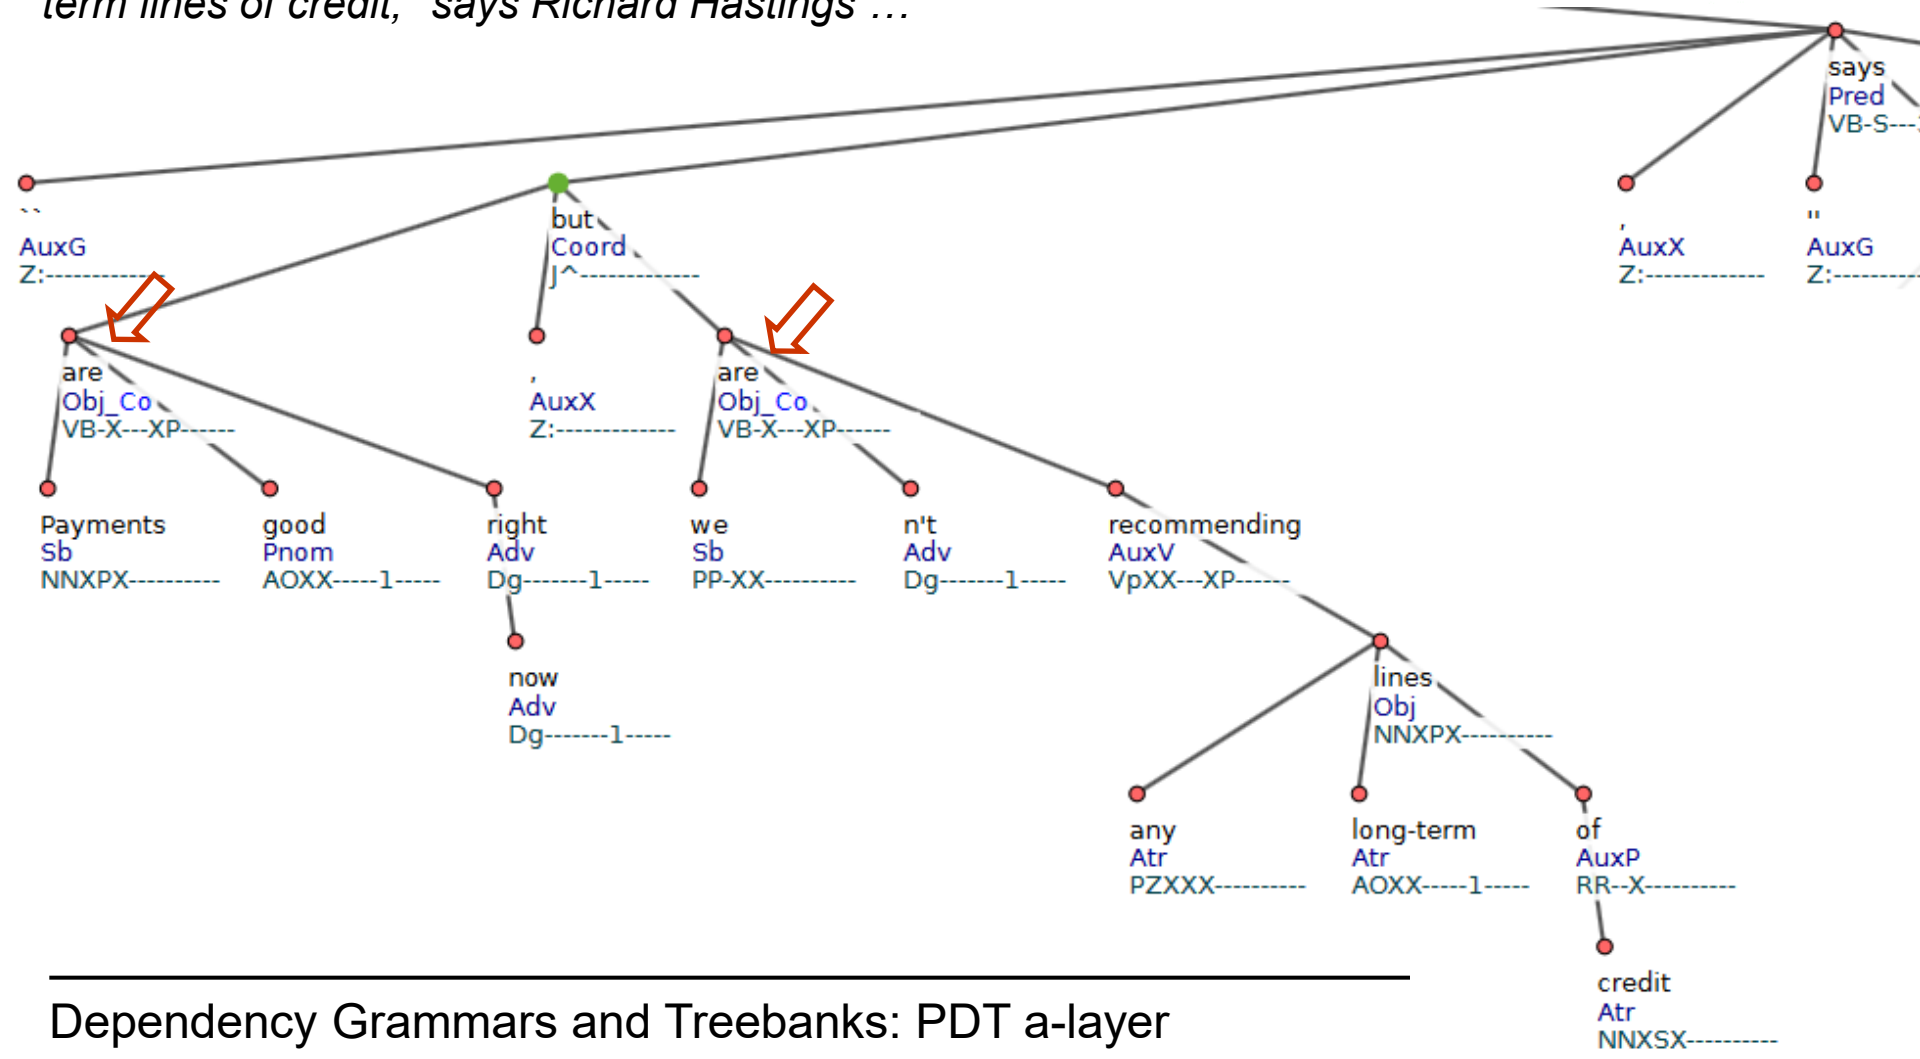

- "multiplication" of a single syntactic position (sentence member / sentence)
- **Coord** ... 'connecting node'
  - primarily: - coordinating conjunctions (*and, or, thus, ...*)  
- connecting expressions (*and so on, et cetera, ...*)  
- comma
- visualization ... suffix\_Co  
... is\_member in the data

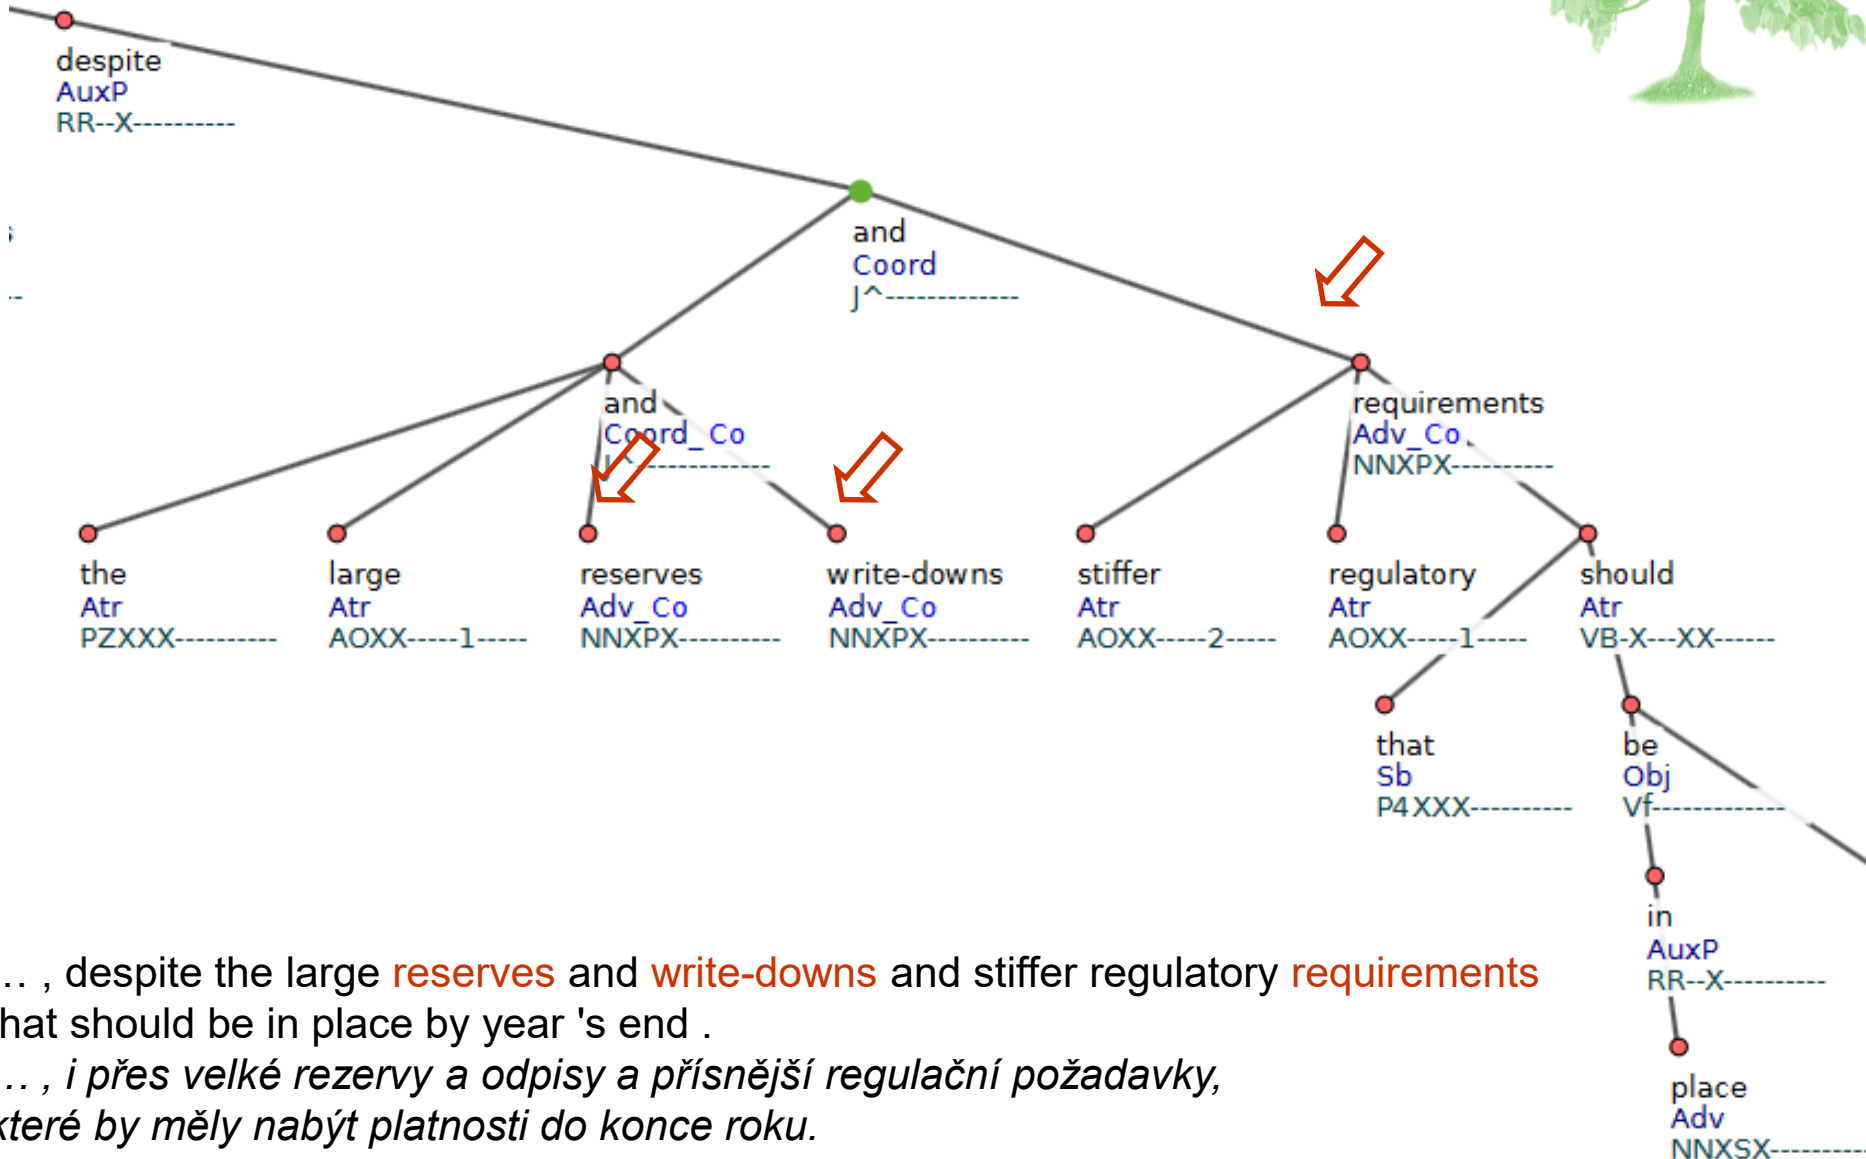

# Non-dependency: Coordination

"Payments are good right now , *but* we are n't recommending any long-term lines of credit," says Richard Hastings ...

# Non-dependency: Nested Coordination

# Non-dependency: Coordination (cont.)

all coordinated members ... the **same** analytical function (if not Coord)

- if not possible ... **ExD\_Co**

(He) *came* alone and *immediately*

---

# Non-dependency: Apposition

analytical function: **Apos**

- "multiplication" of a single syntactic position (the same referent)
- members of an Apposition ... interchangeable
  - the **same** function
  - formal condition: typically the same case
- typical connecting expressions  
e.g. *jako [as]*, *t.j. [i.e.]*, *(jako) např. [e.g.]*, *ergo*, *tedy [thus]*, ...
- visualization suffix `_Ap` vs. `is_member` in the data

# Non-dependency: Parenthesis

an additional adjunction to the statement in the sentence

- formally marked by some graphic sign(s)
  - bracket, dashes, commas, ...
- is\_parenthesis\_root in the data
- Cz: visualization: suffix \_Pa

I am, *unfortunately*, short of money

later - I *have* to admit – I was ashamed

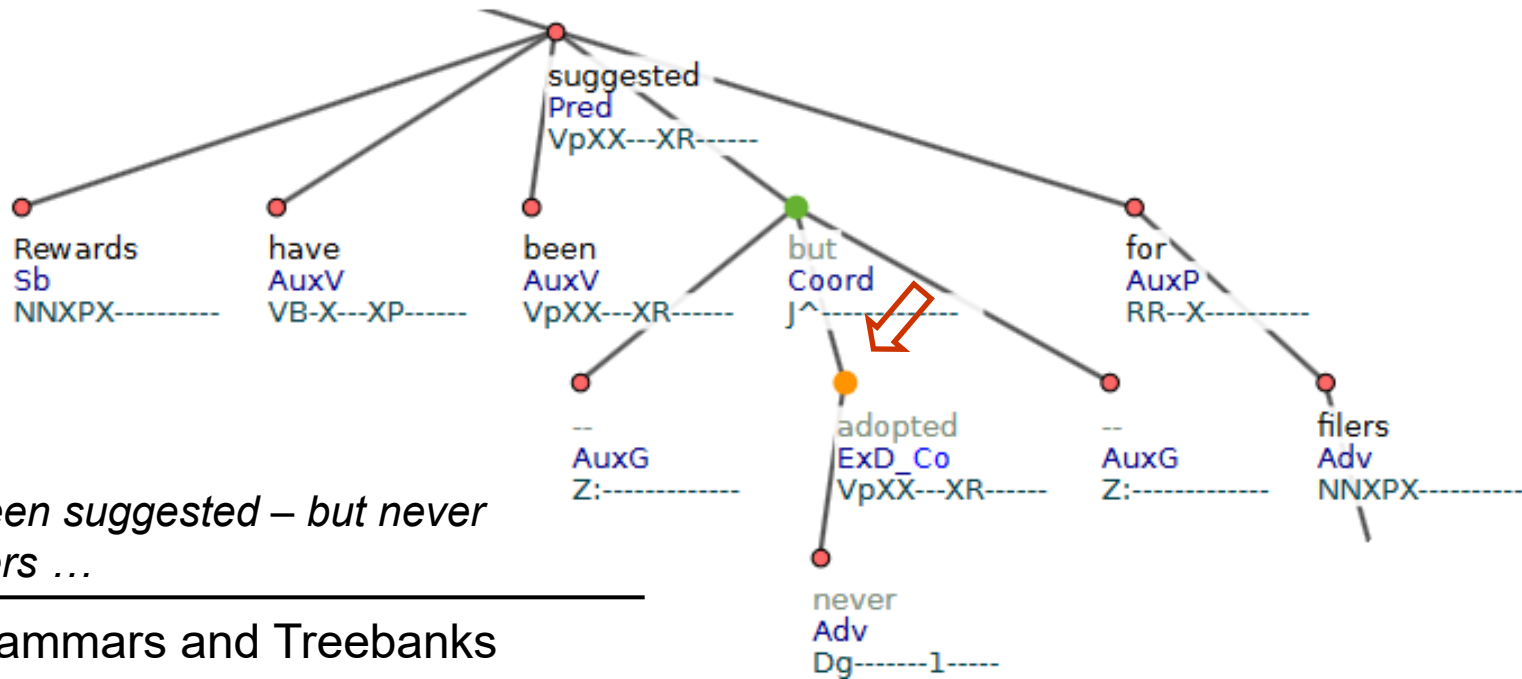

# Non-dependency: Parenthesis

an additional adjunction to the statement in the sentence

- formally marked by some graphic sign(s)
  - bracket, dashes, commas, ...
- visualization: suffix `_Pa` vs. `is_parenthesis_root` in the data

**BUT:** HamleDT English ... as `ExD_Co` (ellipsis, coordination)

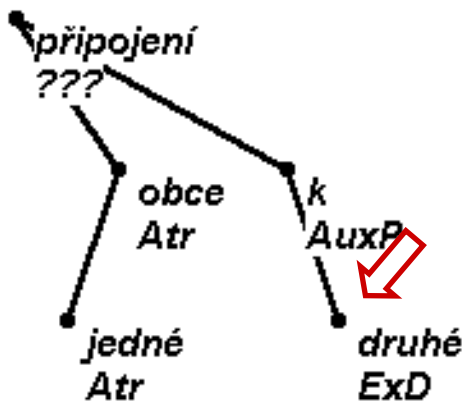

*Rewards have been suggested – but never  
adopted – for filters ...*

# Principles of Annotation: Ellipses

**ellipsis** ~ a deletion of an expression that is expected in the given syntactic structure

- **ExD** ... all nodes that would depend on the deleted node
- exception: prepositions (AuxP) and subord. conjunctions (AuxC) connecting nodes for coordination/apposition (Coord, Apos)
- actual (textual) ellipses

(the) attachment of one village to **another** (= another village)

---

# Principles of Annotation: Ellipses

**ellipsis** ~ a deletion of an expression that is expected in the given syntactic structure

- **ExD** ... all nodes that would depend on the deleted node
- exception: prepositions (AuxP) and subord. conjunctions (AuxC) connecting nodes for coordination/apposition (Coord, Apos)
- actual (textual) ellipses vs. lexicalized ellipses

*(I) have to (go) home.*

*(It) is five (o'clock)*

# Principles of Annotation: Ellipses (cont.)

## *ellipsis*

- coordination
- one-member sentences (verb-less)

*Christine brought a rose, George violets.*

*Sunday Lidové noviny.*

---
