Virtual research environment EVILINHD

First Virtual Research Environment (VRE) for the Spanish community www.evilinhd.com

Just a matter of translation: Entorno Virtual de Investigación de LINHD (EVILINHD)

EVI-LINHD

- Open-access and free platfom
- Let users:
  - Register as researchers
  - Create different projects
  - Join, work and collaborate with other projects
  - Save project data on the cloud
  - Publish results on the web
  - Publish projects and metadata in our LINDAT Clarin repository

Collaborative workspace

Publication platform

Share and save XML files
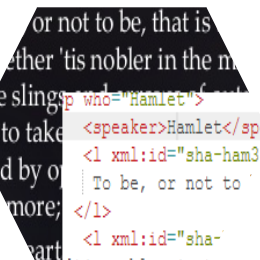

Add metadata to projects

TEI-XML editing tool

CLARIN

Why LINDAT-DSpace in EVI-LINHD

- To publish project metadata once projects are finished, giving them permanents identifiers PIDs (URIs)

- Recovers and index all project information published in EVI-LINHD

- Gaves visibility to projects and connect them with similar resources through the Virtual Language Observatory: https://vlo.clarin.eu/

- Enables academic credit and recognition

Why LINDAT-DSpace in EVI-LINHD

– **Our contribution:**

- Includes the controlled vocabulary of TADIRAH (DH taxonomy) made by DARIAH, and translated to **Spanish** at Caicyt-Conicet, Argentina

http://tadirah.dariah.eu/vocab/

- Controlled vocabularies for

  – Research activities

  – Research objects

  – Research techniques
